

Jet Noise Reports, January 2015 – October, 2018

- ⇒ Reports by Month
- ⇒ Reports by Loudness
- ⇒ Reports of Noise by Hour of the Day
- ⇒ Daily Noise Profile
- ⇒ Comments submitted with each report, revealing human impacts

The San Juan County Jet Aircraft Noise Reporting website <http://sicgis.org/aircraft-noise-reporting/> was developed and approved by the County Council to enable San Juan County residents to have a reliable source for recording and tracking their comments and complaints about jet noise from Naval Air Station Whidbey Island. Reporting began on May 15, 2014; data has been analyzed for this report since January 2015.

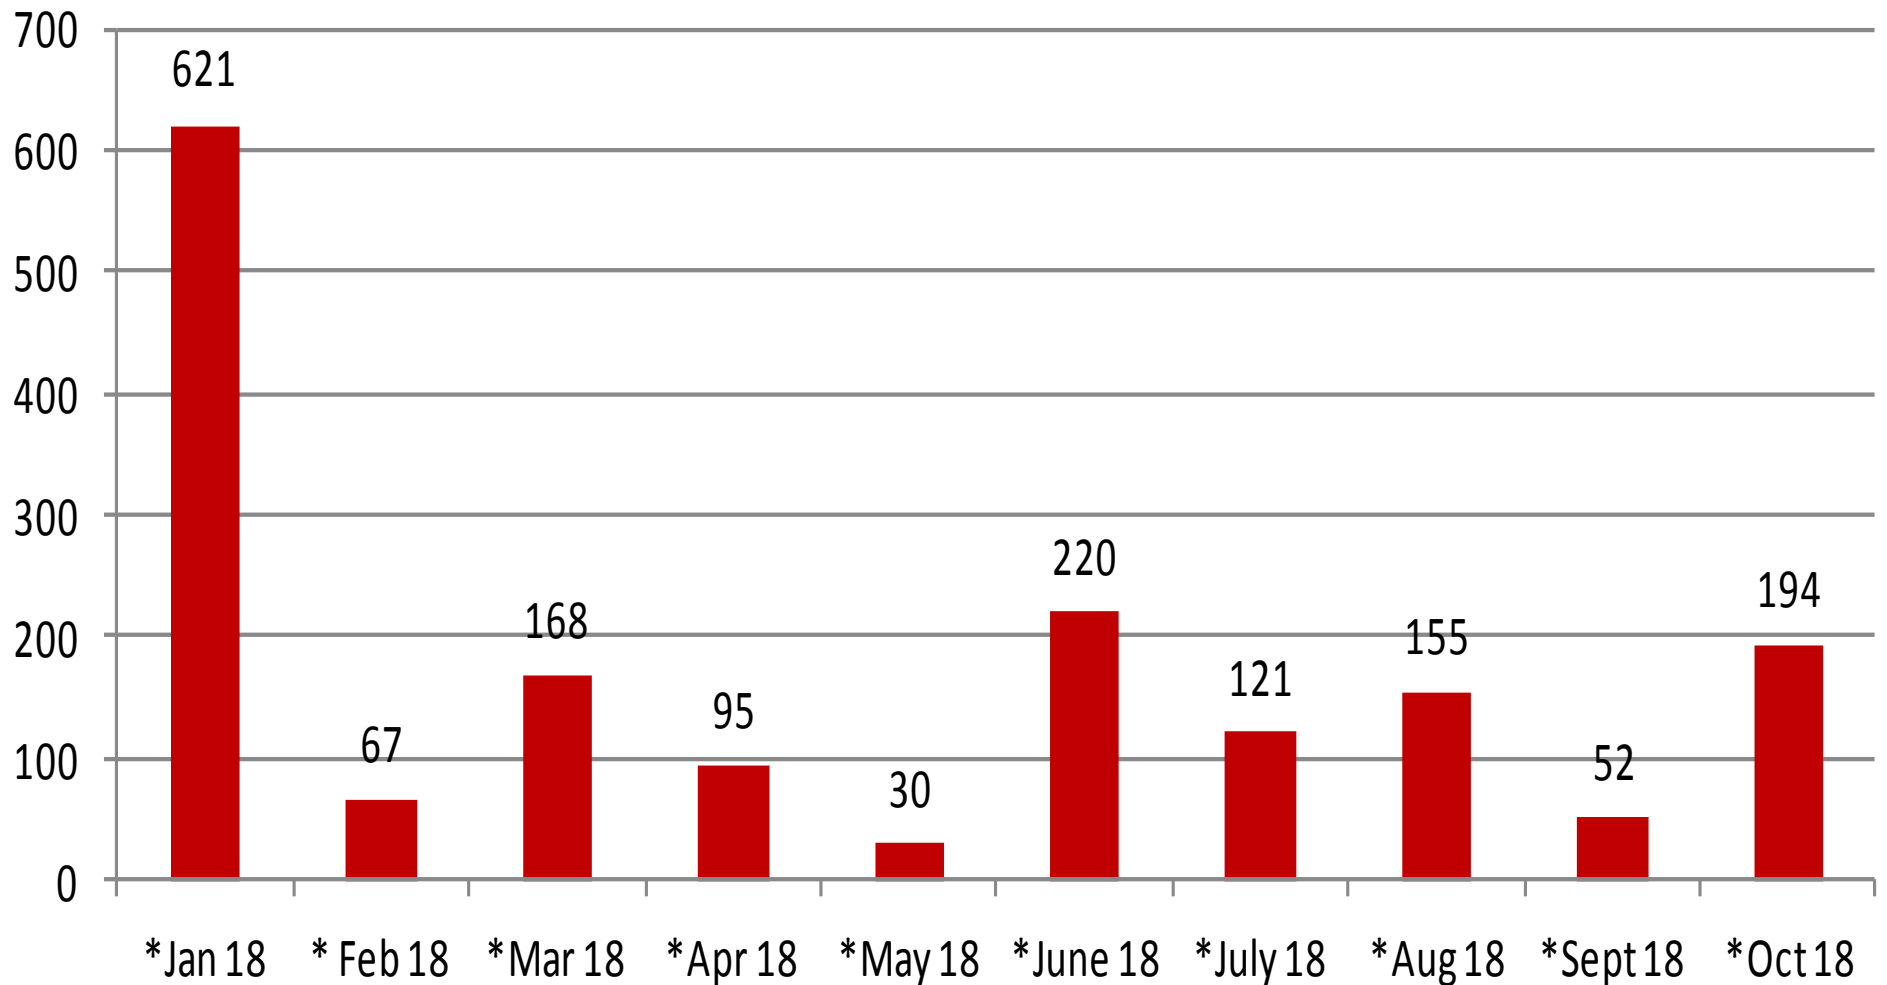

As these reports are compiled it has become increasingly apparent that some residents are reporting multiple noise incidents in their comments and in the section titled “Time”, but they are consolidating these incidents into one single report. See the comments on page 8 for examples. A report is only counted once despite the internal reference to multiple incidents. Thus, the number of noise incidents is actually much larger than the number of reports.

In addition, some residents prefer to call the Navy's comment phone line instead of using the website. This reports does not have access to the number of those calls.

Some residents have instruments that measure the decibels inside their home, as seen in a number of the comments. Noise level is measured in decibels, with lawn mowers producing around 90 dB. This is louder than traffic noise -- which averages around 80 dB. As seen in reports now and over the past years, and currently, *Growler jets are producing anywhere from 65 to 118 dBA inside homes.*

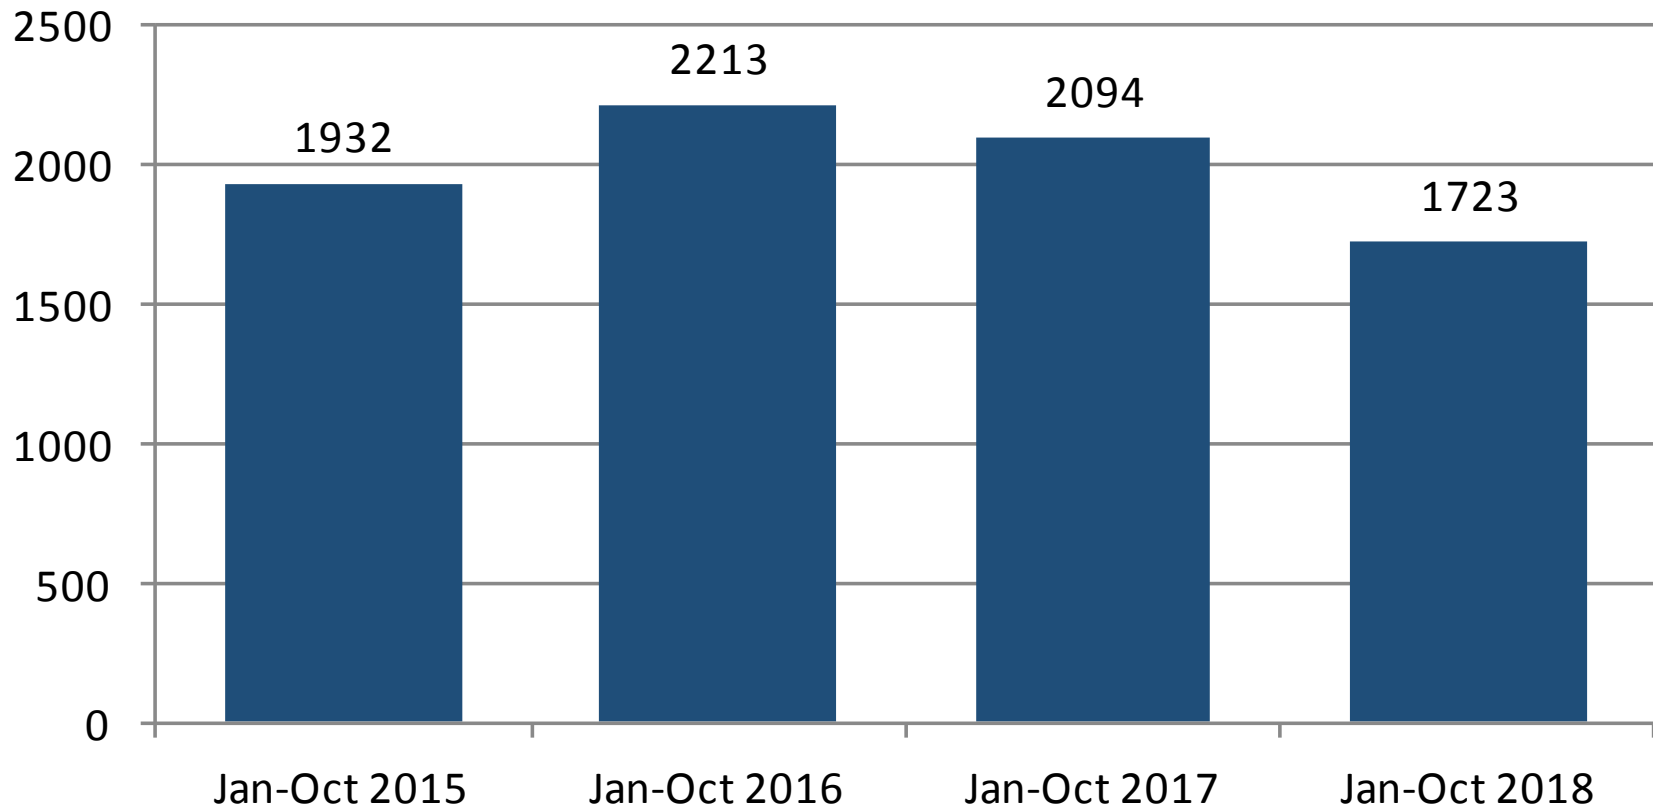

The noise complaints by residents beginning on page 8 tell the human story.

Noise Reports: January - October, 2018

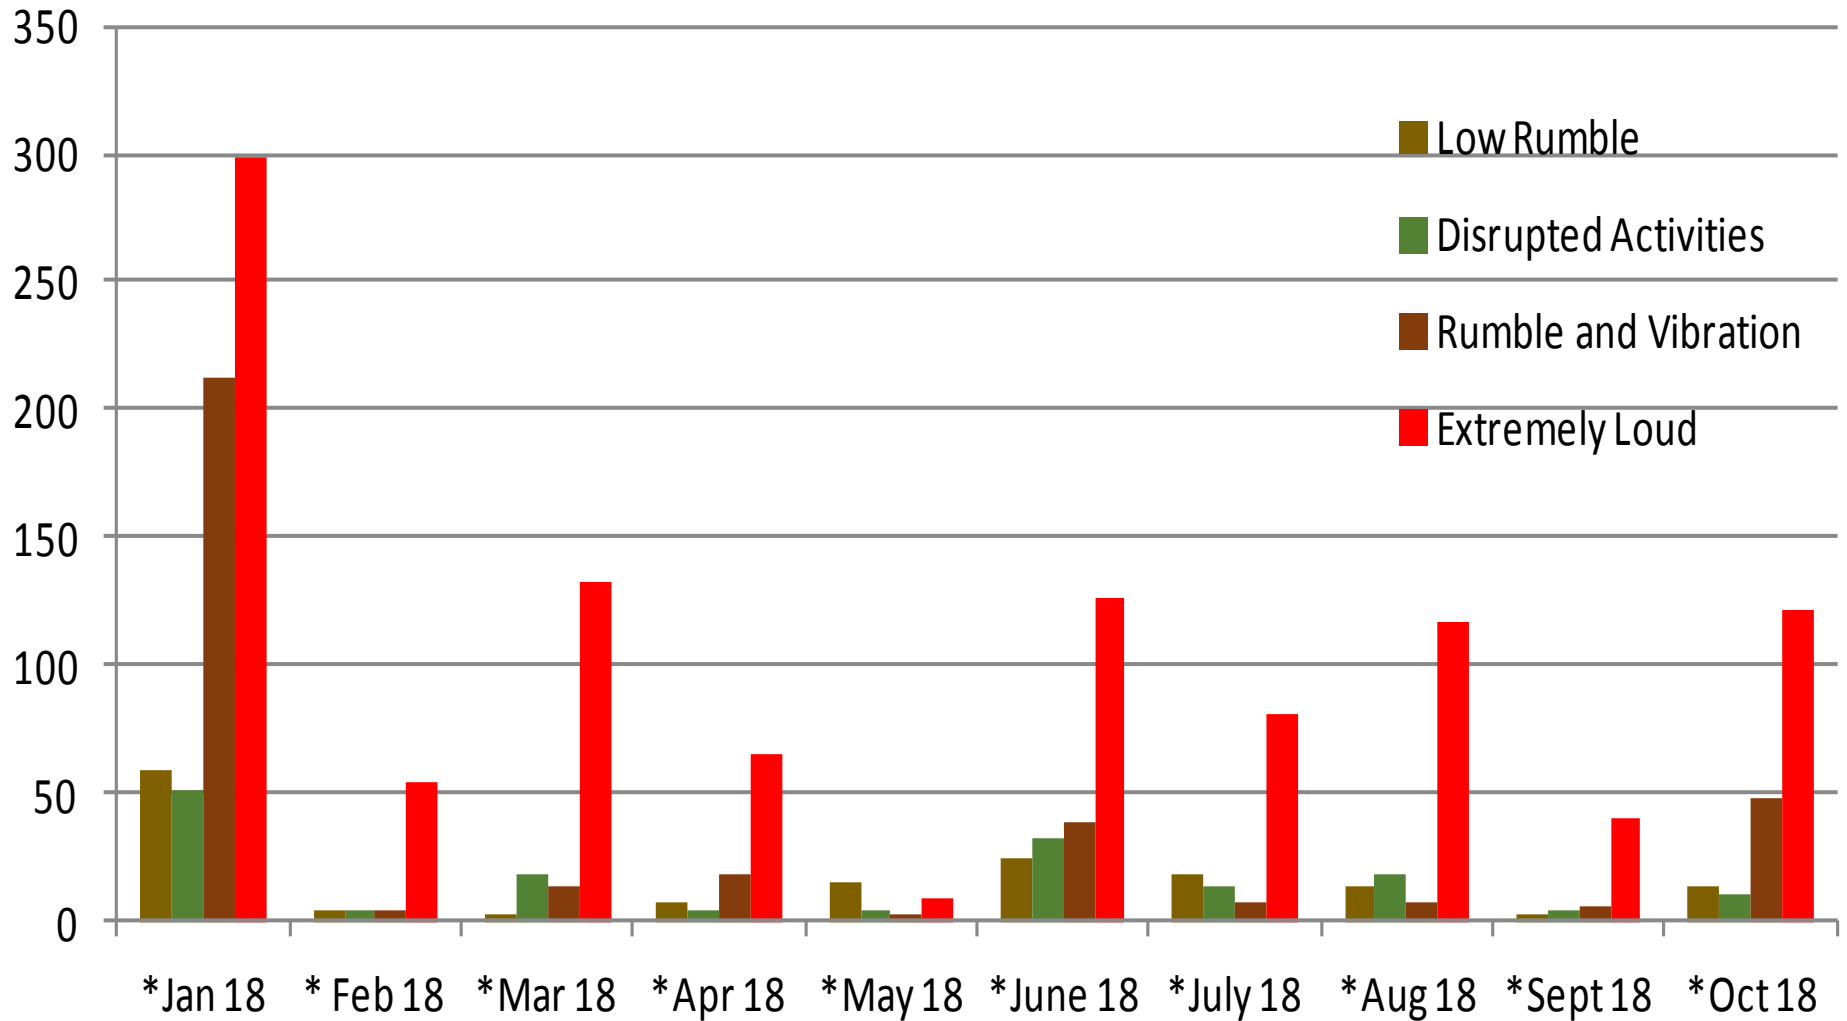

For example, in January, 2018, 621 comments were recorded, describing 621+ noise incidents.

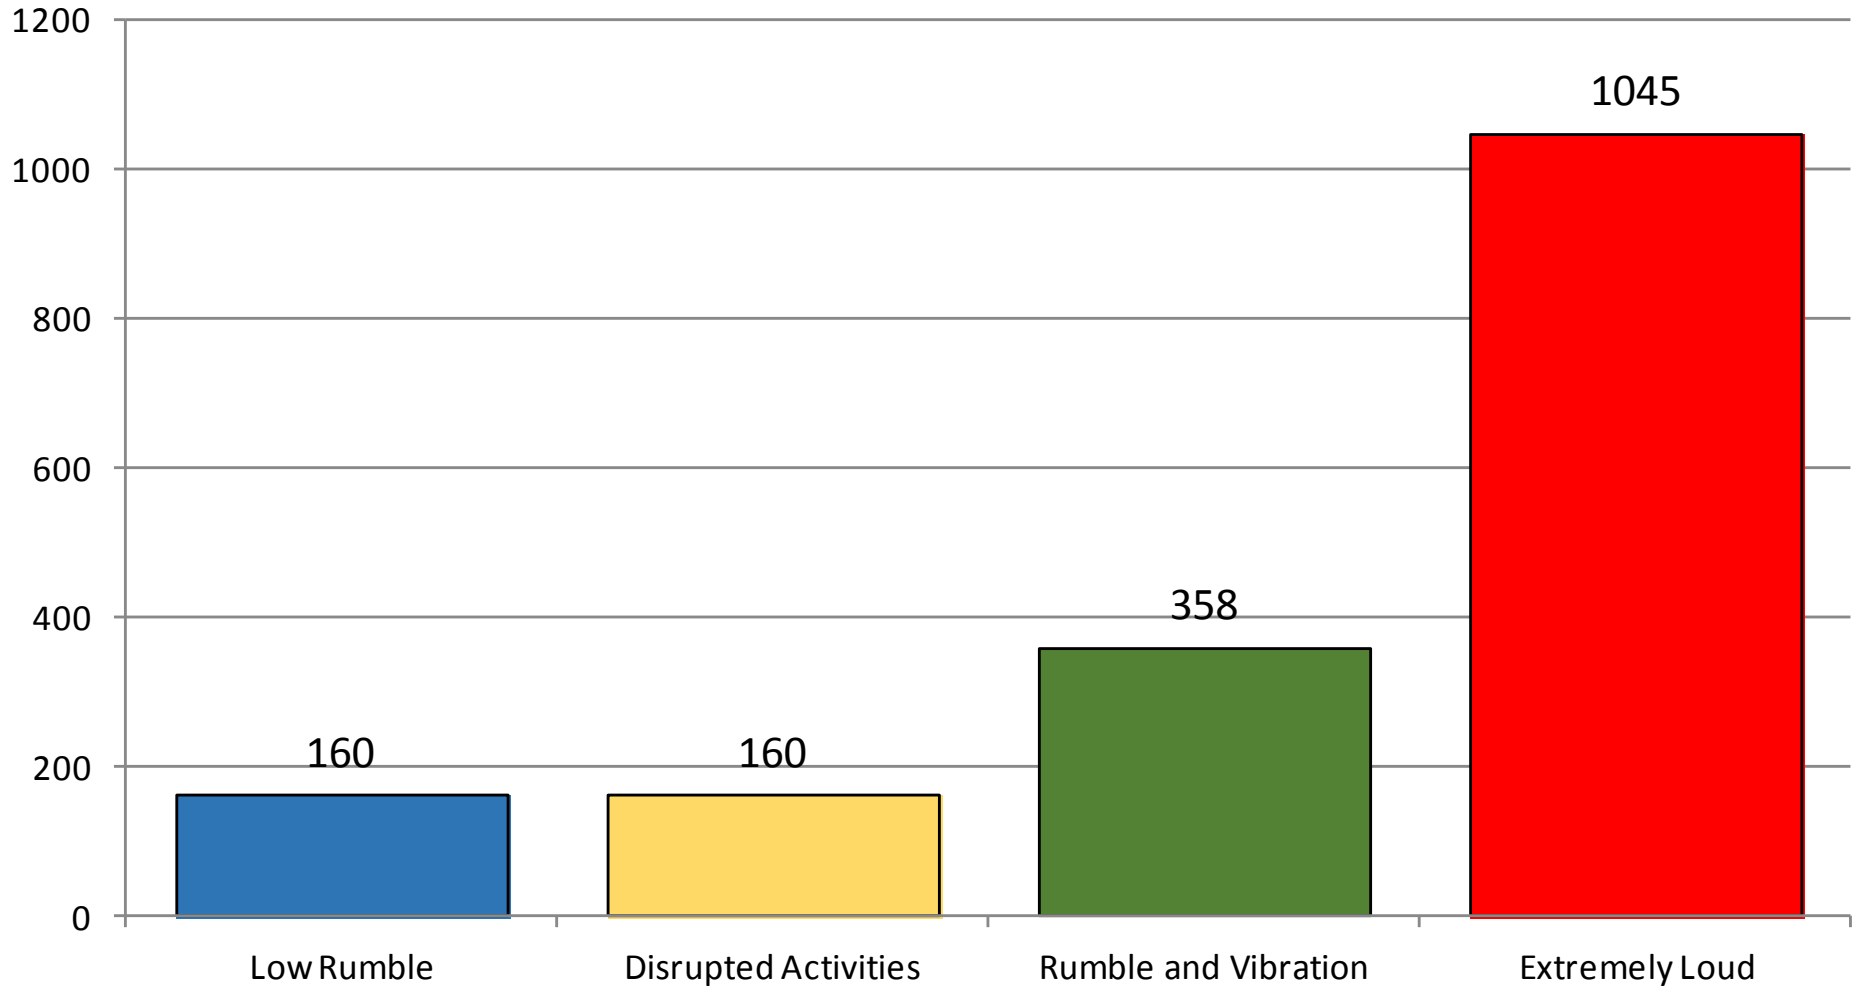

Jet Noise Reports: Comparing January through October 2015 - 2018

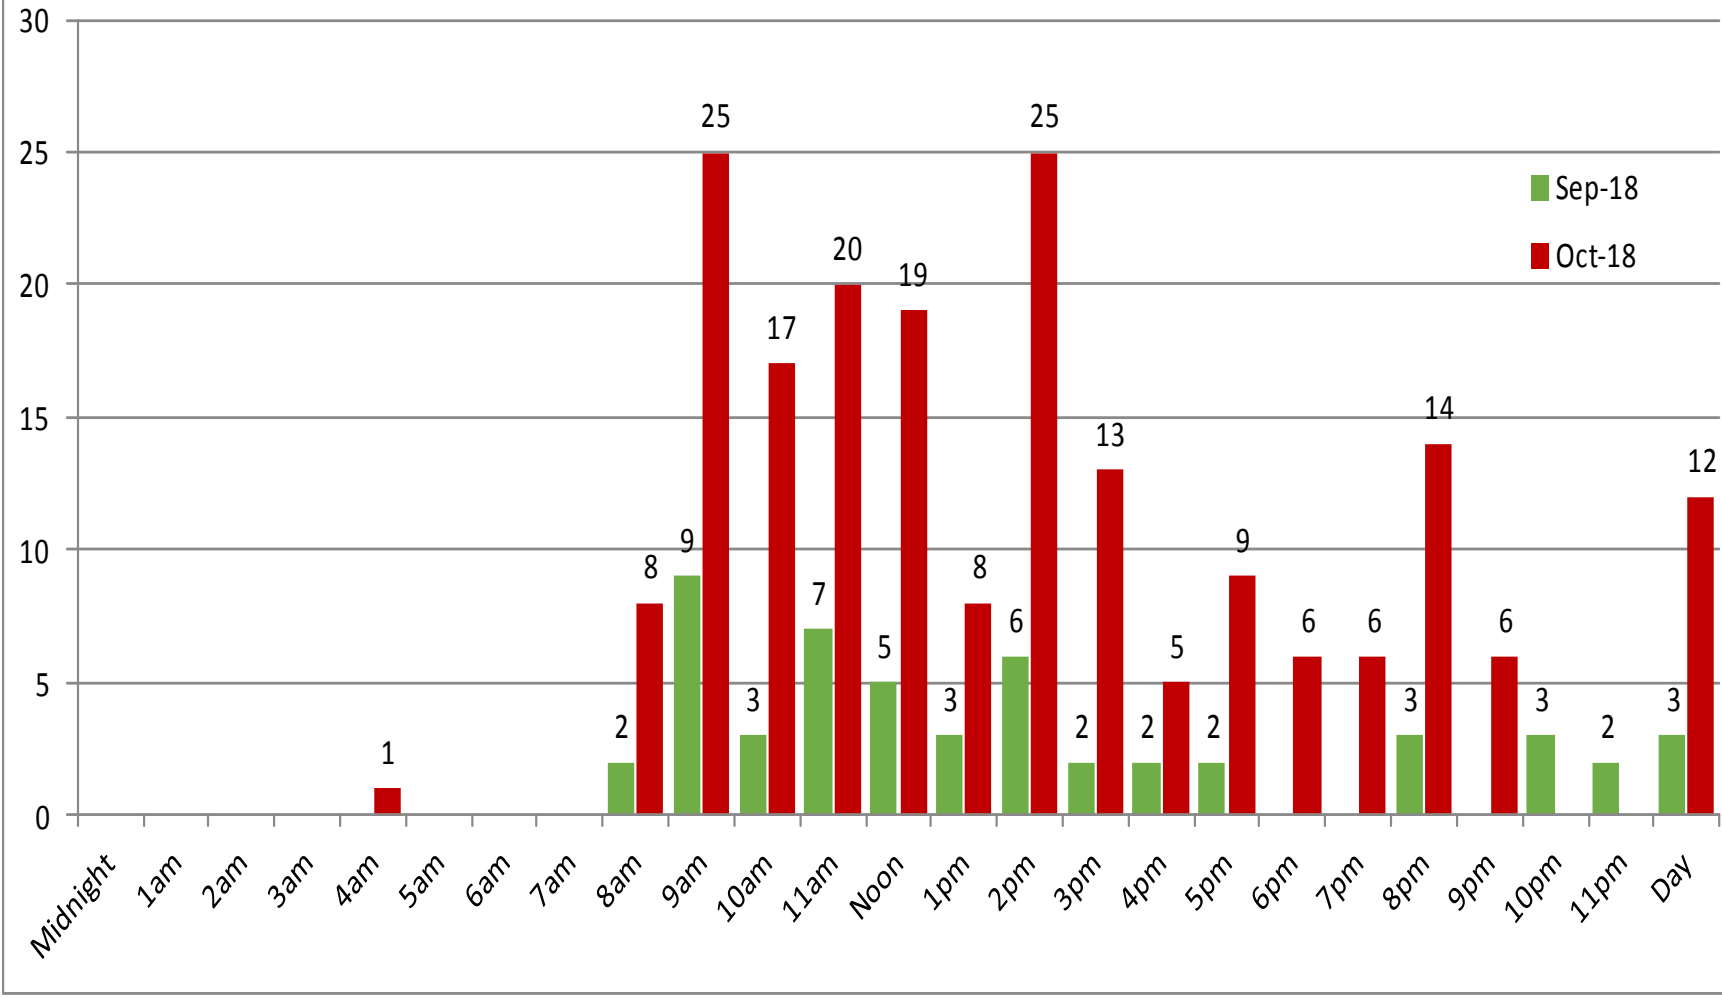

Loudness Reports: January - October, 2018

Jet Noise Reports by Loudness: January - October 2018 Total: 1723

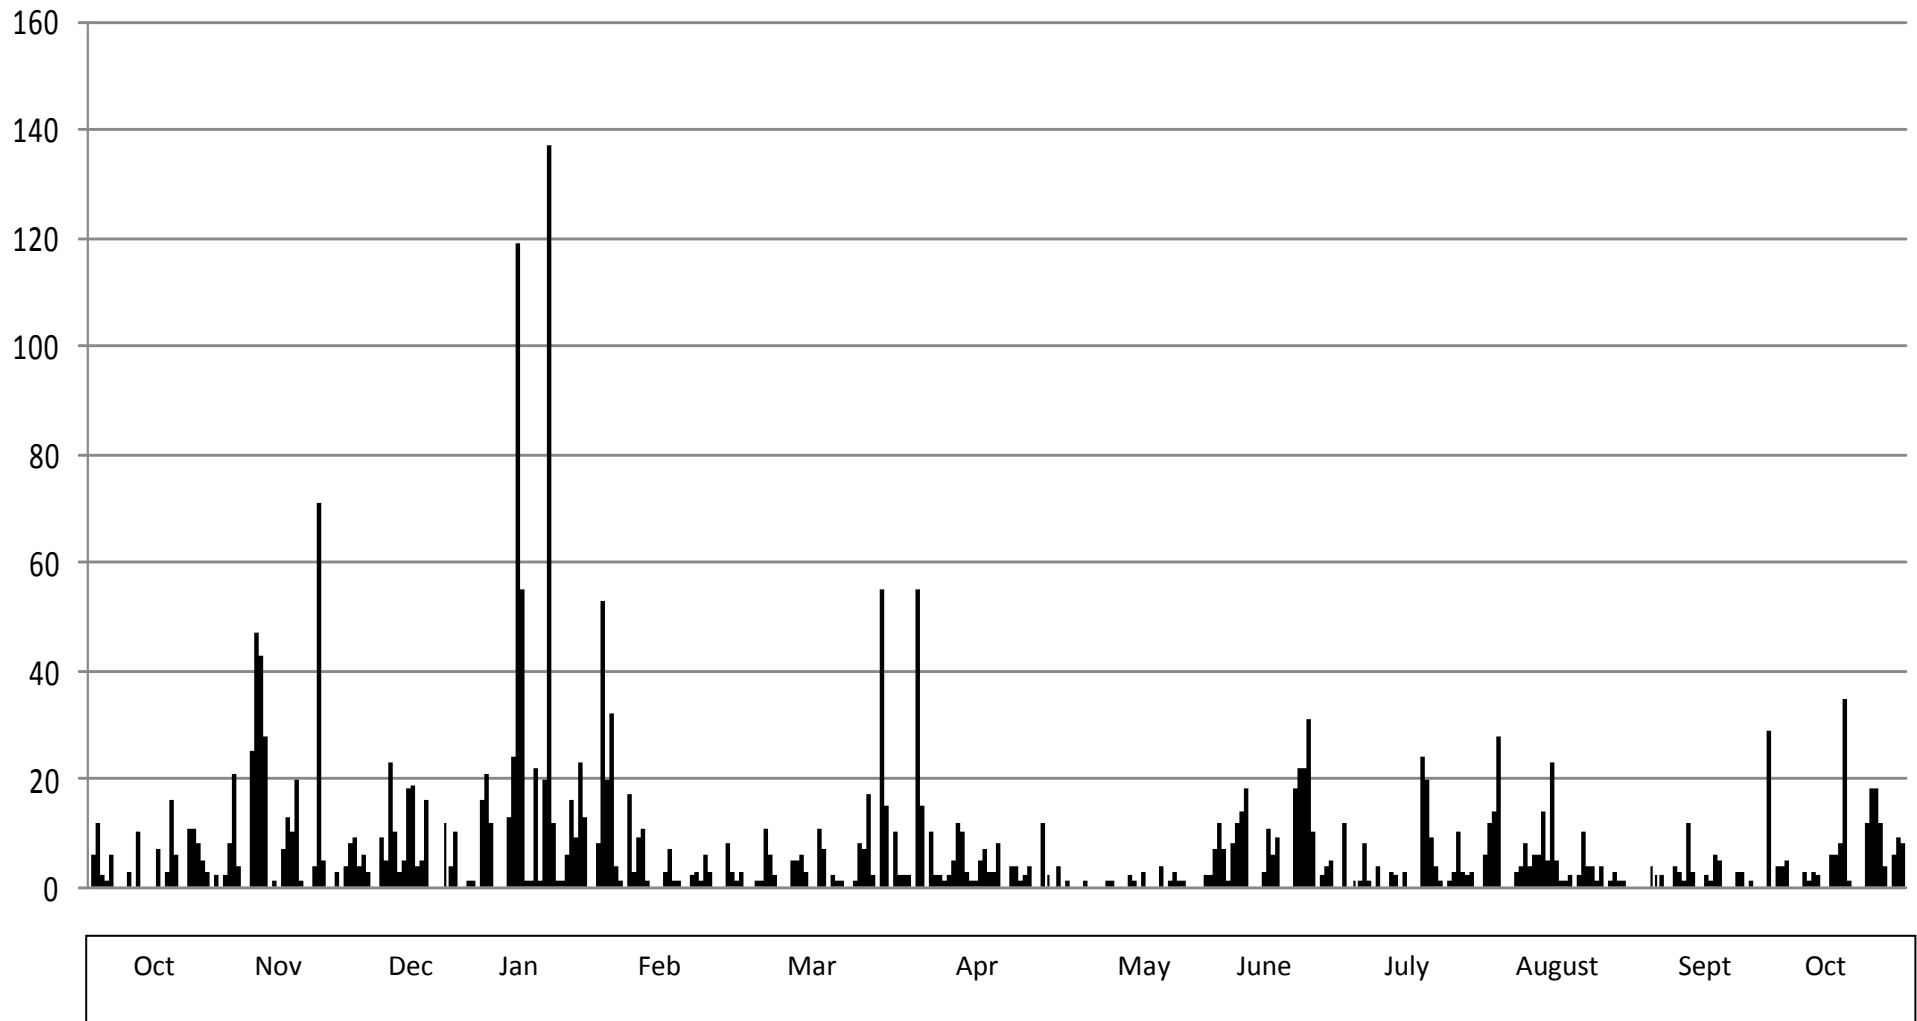

Noise Reports by Hours of the Day: September, October, 2018

For example, reports submitted reporting noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. Some reports do not include a specific time. For those, related data may indicate Day or Evening. In some cases, time of the noise event cannot be discerned from entered data and is recorded as N/A.

Daily Jet Noise Reports: October 2017 - October 2018

This chart presents the number of noise reports by day, from October 1, 2017, through October 31, 2018. As seen in this chart, there are many days when the noise is so excessive that there are many reports. Interspaced are days with few reports. The Navy persists in using "annual noise averaging," significantly underestimating of the impact of jet noise. There is no "average" level of noise.

Comments Submitted with September and October 2018, Reports

9/5/18, Wed, S. LOPEZ: 8:05am,, 8:10am, 8:12am, 8:15am We can feel the adrenalin kick in - the house is shaking, the noise is in the 80+ decibel range - this is insane.

9/20/18, Thur S. LOPEZ: The Growlers quit at 11:30 pm last night. NOW at 8:19 am they're back. We had 8 hours of quiet and now the ROAR begins again.

9/20/18, Thur S. LOPEZ: 8:42am - 2:30 pm Another SIX HOUR DAY OF GROWLING. . . . this kind of low frequency noise is a form of torture.

9/11/18, Tue S. LOPEZ: 9am - 2pm 5 hours of ROARS, BLASTS AND OVERFLIGHTS 70 - 80 decibels - unbelievable that this is happening over our homes and parks.

9/13/18, Thur S. LOPEZ: 9 - 10 am - 5 separate house rattling BLASTS. 75 - 82.6 decibels in the house

9/10/18, Mon S. LOPEZ: 9:10am, 9:27am, 9:47am, 10:10am, 10:37am, 11:19am - Huge Blasts inbetween Deep jarring rumble for almost 2 hours!

Engine run-ups or take-offs. Whatever is going on on Whidbey, the jet roar is slamming my home. South Lopez.

Sounds like the war has started. (The Navy's war against this region.) Now the jet roars are coming one after another. House is vibrating as jet noise waves roll across from Whidbey. The GROWLERS must go. They are WRONG for a populated region.

9/6/18, Thur, S. LOPEZ: It begins again. 9:19am, 9:33am . Huge roars! Do Inslee, Cantwell, Murray Larsen realize Ault field has zero deflectors for the noise. ZERO.

9/5/18, Wed, S. LOPEZ: 85 decibels in the house

9/25/18, Tue S. LOPEZ: Screaming Overflight

More rumble and vibration rolling into us from Whidbey. A disturbing morning.

Two growlers flying low to the north over Mud Bay, Lopez. VERY LOUD and hurtful.

9/13/18, Thur S. LOPEZ: 82.6 decibels in the house. the day begins with everthing shaking!

9/24/18, Mon S. LOPEZ: 9:55 - 10:06am Roaring from Ault Field where they have zero noise deflection procedures - except ,of course, pointing the exhaust over the Rosario Straits directly at San Juan County.

In my home office, where I actually do work for INCOME, and all I am getting this morning is a shuddering home due to jet blasts from Whidbey. Legislators and the Navy must think no one lives here or works here. Blame Larsen, Cantwell and Murray.

"9/14/18, Friday S. LOPEZ: The noise begins AGAIN! 10:07AM - 1 pm.

3 hours. Maybe they are done and we can take off our head phones."

9/13/18, Thur S. LOPEZ: 10:48am - 68.3 dec., 10:52am HUGE crushign overflight, 10:58 ROAR, 11:06AM HUGE LONG LASTING roar, 11:40 am - 12:30 pm the growling continues. 2.5 hours of Growler noise is crazy making.

Big jet rumble coming from Whidbey. 11:12am

Directly over Lopez Island

9/19/18, Wed S. LOPEZ: 11:29am, 11:30am House rattling BLASTS

9/10/18, Mon S. LOPEZ: Agate Beach 11:30am, 11:32am - Screaming jets overhead. WHY!!!!

9/19/18, Wed S. LOPEZ: 11:40am - 1:45pm - 2 hours of BIG low vibrating ROARS. Sounds like FCLP - but , of course no FCLP scheduled until late evening. So what is it? Navy incompetence or some new hideous practice?

On a business phone call and have already endured blasts and roars, and now there are two growlers screaming overhead. This is aggravating. South Lopez.

Disrupted work meeting

9/6/18, Thur, S. LOPEZ: Over flights. Huge Roars.

9/10/18, Mon S. LOPEZ:12:09pm - 1:07pm - Series of blast and overflights. It's a war zone. All we're missing is the live explosives. This is hour #3 of Crushing noise.

Could not hear my computer guru on the phone

9/13/18, Thur S. LOPEZ: 12:30pm - 2:30pm intermittent ROARS

9/25/18, Tue S. LOPEZ: 78.6 decibel overflight

9/17/18, Mon S. LOPEZ: 75.8 decibels in the house - Screaming overflight

What is going on? This time ANOTHER LOOOOONG roar and vibrating wall of sound. Take-off or engine run-up. The roar comes from Whidbey right into my home, 14 miles away.

sounded like it/they flew an arc overhead - didn't see bc stayed inside

Second flyover today. Practice somewhere else. Install some noise controls.

In the Village of Lopez when a Growler jet roars overhead

Very loud jet noise/roar coming from Whidbey. It has been noisy all day.

9/12/18, Tue S. LOPEZ: 75 decibels in the house. OVER FLIGHT. ANOTHER EAR SPLITTING ROAR at 3:50pm

9/19/18, Wed S. LOPEZ: Left home earlier around 2pm to escape the Growler noise. Returned at 4:45pm - STILL ROARING. So hard to come home and the first thing I hear and feel is the ROAR AND VIBRATION - everywhere.

"9/18/18, Tue S. LOPEZ:

4:50pm - Crushing Roar over head"

9/19/18, Wed S. LOPEZ: 4:45 - 5:30 pm - Another hour of Growler noise

9/24/18, Mon S. LOPEZ: 5:30pm & 5:56pm: CRUSHING OVERFLIGHTS at Agate Beach Park on Lopez - 90 + decibels.

9/19/18, Wed S. LOPEZ: 7:07 pm - 8:45pm. Blasting and Roaring - EVERYTHING SHAKING - This has been going on (with a few breaks since 11:30 this morning.

9/13/18, Thur S. LOPEZ: LONG DAY OF GROWLER NOISE. These roars are disturbing but sound like they may be going away. 8:45pm, 8:47pm, 8:50pm, 8:55pm.

Hearing the long approach of a jet, then its retreat. It is a lllloooooonnnngggg WHINE that says" You're not going to find it easy to sleep this evening. Not surprised if all the jet noise today is a signal of jets flying back over us tonight.

9/19/18, Wed S. LOPEZ: 9:11pm - 11:30pm We have experienced a total of Six and a half hours of Growler noise today. Tried to find a quiet place on N. Lopez. Could still hear and feel the low roar.

9/17/18, Mon S. LOPEZ: 9:30pm - 10:30pm Another hideous night of noise.

9/10/18, Mon S. LOPEZ: A horrible day of jet noise - capped off with a Huge roar and overflight - waking us all up - again.

Late already with low sick thunder to the south- heard from Anacortes. No peace miles from the flying, unhealthy,

Already awakened by a loud jet overhead a few minutes ago. Now here is another one. 11:05pm

Very loud all day to the point where the extreme noise became disturbing and exhausting

"Super loud most of the day

very disrupting"

9/7/18, Fri, S. LOPEZ: Giant Blast

2:17pm Another rocking roar from Whidbey. Like standing right behind a jet taking off. The roar goes right into my bones.

Saturday morning, 8:25am and we are getting big blasts of jet noise from Whidbey. Sounds like Whidbey is getting bombed.

Monday, 8:28am. The jet roaring from NASWI has started. I can FEEL IT, right into the house. Will it be like this all day? Always worried about it.

Big roaring coming from NASWI this Sat morn. The floor feels the vibration.

My guests and I have been disturbed by the rumbling most of the week. My friend from the midwest wondered if it was thunder, a storm? So much for peace and tranquility for guests.

Multiple Low flying growler aircraft

The bombing has begun. 9:11am. Three loud jets overhead in the last 15 minutes. TV is on, no doors or windows are open, and still the jet noise disrupts us.

Saturday morning disturbance of the peace, Anacortes near the ferry terminal. Intermittent

Low flying growler aircraft with gear likely down

Extremely loud blast as the jet turned just above the low cloud ceiling

Another loud jet overhead. 9:33am

Low sweep by loud and rumbling jet aircraft lasting several minutes

Jets flying over so loud I felt like hiding

9:38am. Huge jet rumble from Whidbey.. Heard and felt vibration even though the washing machine is in spin cycle. I knew immediately that there was noise and vibration beyond that.

The Navy is sending loud jets over us. Many this morning and it is only 9:43am.

Persistent Rumble, roar and vibration from Whidbey island NAS. Terrified a visitor from off island.

A minute ago, roar and rolling vibration from NASWI hit our home.

Significant rumbling and vibration from growler taking off st Whidbey NAS

Big jet rumble and vibration rolls into South Lopez.

VIIIIBBBRRRAAATTTTIIIOONNN How do our legislators allow our home to be so invaded?

Significant rumbling and vibration from growler taking off at Whidbey NAS

Second day in a row of loud and disruptive jet noise

We are having a rather continuous line of jets over us this morning. This is another one. Very loud.

Insistent roaring coming from Whidbey. Just roar roar roar roar roar, like a coal train running next to the house. Why should I be hearing Whidbey activity 14 miles away with doors and windows closed?

Low rumble from more jet activity that has been bothering us all morning. Lopez.

Low rumble of jet noise rumbles right into my home 10:10am. Annoying.

Incredibly large roar of jet in the sky. South Lopez. Disrupted my concentration as I am writing a report. It was long and booming and roaring.

ANOTHER roar, rumble, blasting jet vibration bombs South Lopez. The growler jets are TOO LOUD for this region. They are in the WRONG place. The Navy LIES when they say "no impact". Legislators: Am I paying taxes for Lies?

Loud jet activity from Whidbey. The noise is bouncing around since it is so windy outside.

Two days in a row. 15th and 16th. Earthquake, no, just the growlers again.

A morning of sounding and feeling like we are in a war zone. The roaring and vibrations (wall of jet noise)...all morning. the anxiety of thinking this may last all day. What a way to live.

Just reported one roar from NASWI, and now here is another. This is irritating, annoying, distracting. Navy: GO AWAY. You are NOT protecting us, you are abusing us.

Outside, sudden DEAFENING and LONG roar hits me. It is a pounding noise, a wall of noise that covers everything. 10:56am. I had to come inside, concerned there would be more.

I was correct to come inside. The roaring vibrations are now slamming into our home. Cannot be outside. "The Sound of Navy Arrogance and Abuse."

House vibrating from Growler taking off at Whidbey NAS

Beautiful day except for the nearly continuous blasts of noise. Started after 11am, continues now close to 1pm, generally every few minutes, then break of about 10 minutes, then on again

Rumbling for 3 days now. Starts to affect my heart rate.

It's a good time in my workday for a walk outside to clear my head. But there is so much jet noise in the air I am reluctant to go outside. There is enough jet noise inside this house that being outside would be worse.

Very loud, interrupting conversation

11:35am. Floor shuddering with roar and vibration of jet activity at Whidbey. I feel it in my body. The vibration is tremendous. Can't shut it out of my home. It comes right in.

Again today. More vibrations

low end shaking, no plane in sight

At Anacortes Ferry. Extremely LOUD jet rumbling and roar from Whidbey area. Quite disturbing.

Startled by a very big roar. What???? Rushed outside and saw a VERY LOW jet directly overhead, roaring and lumbering south to north. Deafening. Looked like a P-3 or a P-8. I do not know the difference.

While walking around Anacortes ferry, heard very loud and long jet noise. BIG rumbling.

Loud and shaking rumble disrupted work and disturbed peace in a wide area

A morning of roaring vibrations. Sounds like jets taking off from Whidbey. The roar travels right across the water and hit us like body blows. The Growler should NOT be in this region.

Very loud low flyover, also blasts at 12:07pm, 12:31pm, continuing at 12:34pm...

12:27pm. South Lopez. Now we have a roaring and screaming jet overhead. Long shriek, with a following roar. TOO LOUD.

Jet just SCREAMED overhead. South Lopez. Now we are getting the following roar. Ruined my concentration on my work.

Lots of rumbling in the skies now. I have work to do outside and I am concerned that the noise will be so much that it will just HURT to be outside, thus disrupting my schedule. This better stop.

A minute after my previous report of a SCREAMING jet, we now have huge jet roar in the air. Sounds as if the jet is just rolling around up there. Probably echoes, but it is going on and on and on. It dies, and then roars again.

Intermittent roaring all morning 🤯🤯🤯

House vibration from growler takeoff at Whidbey NAS

This is a discouraging day. Gorgeous outside. But the roaring from Whidbey is so obnoxious. I am feeling worn down from the morning of roaring. Windows and doors are shut. I may have to start wearing headphones...in my own home!!!!

Another in a continuing series of rolling noise vibrations is thudding into me. The thunder is long and deep, as if a train is bearing down on us. This is not acceptable. Murray, Larsen and Cantwell bear this responsibility. In the Navy's pocket.

ANOTHER screaming and roaring jet overhead. Mud Bay, Lopez. Very loud and long.

Out riding bikes with a friend. DEAFENED by Growler jet overhead. DEAFENED. This is NOT RIGHT> South end of Lopez.

Big roar from Whidbey. Engine run-up or jet taking off. Whatever it is, it is too loud for this populated region.

Multiple fly overs for several hours.

All day this is happening. The Navy is not good neighbors.

Low flying growler aircraft

Multiple low level growler aircraft over my house with gear down

Particularly LOUD jet rumbling going on. The air is just filled with jet noise. Do we live next to Sea-Tac, perhaps? Or, just maybe this is a WAR training zone? This is not a nice place to live. We are just collateral damage for the Navy.

jets flying over right now and it is literally giving me a headache. Time to put on my hearing protection in the house.

Big jet roar and rumble from Whidbey. Lots of them this afternoon.

Just a minute after a big wall of noise, it sounds like that jet is getting ready to fly over us. A different roar, but steady. Now, it sounds like its coming. Very big roar.

Low flying growler aircraft

Noisy jet rumbling in the skies. A very deep roaring. Unnerving.

jet overhead. Very noisy. Not a commercial jet, since the roar lasted quite a while, which is characteristic of the Navy jets.

Low flying growler aircraft

Multiple fly overs that disrupted activities and conversations

The rumbling with shaking vibrations continues. Just getting a big blast right now.

Jet roaring with vibrating waves of noise.

TOO LOUD. It is going on all day!!!

Copntinuous jet roaring in the skies. Very noisy.

Low flying growler aircraft with gear likely down

The roaring, rumbling and vibration continue. ALL DAY!!!! Blasting from Whidbey. 2:54pm

Again, very loud roaring in the skies. Jets must be flying around to the south of us. Sound carries!!!!

Roaring and vibration all morning. Is it an earthquake? No that's the growlers, much louder than an earthquake...

Low flying growler aircraft

Just came in from a very short walk outside to get some fresh air, and actually cut short my walk. A very noisy aircraft above. flying low, but trees obscured any view. A long roaring and then deep roar as it moved away. Disturbed, I came inside.

3:09pm.Sky continues to be filled with the ever-present rumbling and roaring of jet noise. Like living next to I-5. No wonder I never invite any friends or family here to Lopez. Why subject them to this NOISE abuse? Growlers do not belong here!

We are being buzzed. Sounds like Navy jets since they have a screaming/whooshing/roaring noise. Irritating since they zoom toward us and then away, at least that is what it sounds like. Cloudy.

This is a VERY NOISY afternoon. Jets roaring in the skies. Disturbing and annoying.

Big vibrating rumble from NASWI. Rocks the house. Navy denies impacts. Can't trust them, I guess. Sad when you cannot trust the Navy, people who say they protect you. This is protection????

Big ROAR from Whidbey. Jet take-off or engine run-up? TOO LOUD and vibrations are disruptive.

Ear shattering flyover. Could not escape the noise, even under water.

Just reported a huge vibrating ROAR and now there is noise in the skies as if jets are just rolling around. Sounds like WAR.

Being pounded by jet noise and NOW there is a Growler blistering the air overhead - Mud Bay - heading northerly. The roar is tremendous, and now it is LOOONNNNGGGG. This is abusive behavior by the Navy. This is a populated area, not a war zone.

And many other times this afternoon. Especially low pass from east to west at 2:19pm. Now landing gear is down as it goes out into the straits.

Now, a jet rumbling and roaring around. South Lopez. 3:53pm

Growler over Mud Bay, Lopez. Loud. Doors and windows closed and still the jet noise penetrates our home.

MORE jet activity over Mud Bay on Lopez. When will this stop. LOUD jet(s) overhead. I am inside and unable to see the sky, but sounds like two growlers. TOO LOUD!

Loud jet noise fills the skies. Sould like jet activity from Whidbey, perhaps over South Lopez. All I know is that the skies are ROARING

Big blasting roars coming from Whidbey. The noise has been ALL DAY. This is torture.

5:09 pm. A beautiful day for open windows and doors. But now we have rumbling of jet activity filling the skies. Close the doors and windows and effectively hide inside so as to minimize the roaring that comes right into our home.

5:10pm. An entire day of jet roaring continues. Outside, working, all I can hear right now is jet roaring. I may as well be on the runway of SeaTac.

Had a couple of hours of quiet to enjoy the beautiful day. Noise started up again around 5pm, continues almost constantly. I hope this report covers additional time for noise as I can't spend all my time sending in reports even though we impact

The jet noise from NASWI has not let up. It is 5:20pm. It has been like this all day. Roaring, vibrating blasts of noise.

Loud jet roaring in the skies. South Lopez. Working with a helper in the yard. Noise disrupts conversation.

The air is full of jet noise. Those growlers are roaring around somewhere and the noise just bounces around off the water, off the hills. It is everywhere. Driving me crazy.

Jet noise in the air is almost constant. Jets just roaring around. South Lopez. 6:20pm. The jet noise that has been going on all day, like a terror attack, is STILL going on. It is too loud. Huge jet roars, continuous.

Deafening roar of plane at seeming treetop level. Unnerving and scary. Outrageous that these people are supposed to be on our side.

Loud jet over Mud Bay, Lopez. This has been a day of ABUSE. 6:35pm. Blame Murray, Cantwell, and particularly LARSEN, who is wed to the Navy. Who is protecting us?

Another otherwise peaceful evening in Anacortes near the ferry terminal destroyed by sounds of Warcraft echoing from the south. Sick and abusive of the region.

After a full day of jet noise, the jet noise is still filling the air tonight. 7:30pm. Thought I would go for an evening walk after dinner. Stepped outside and new that was hopeless. Who wants to walk in a war zone?

Background noise that raises the hair on the back of your neck.

Some hours now of creepy roaring- cannot enjoy my bedroom on south side of house in Anacortes. This pretend war zone belongs in the desert far from people. Navy abusing us

Sadly more noise to report. Started again around 7pm, on and off blasts of noise. Would like to go to bed soon but expect this will continue a while... roaring for 15 minutes

This evening there have been low rumbles of jets from the south end of Lopez. In other words, it is NOT a quiet night. I just want to say "Shut Up!" Instead, I close doors and windows on a very nice evening. What a way to live.

Low flight over the housegr

Low flying growler aircraft

This one was startlingly loud right as we were trying to help our little one go to sleep. I don't mind it as much during the day, but please not at or after bed time!

Shook the house and was so loud we could not have a conversation without yelling

Dark and cloudy, was so loud it was intolerable, then got suddenly louder, flew right over Lopez Island, roared for a good 10 minutes.

Low flying growler aircraft

Although reporting now this deafening noise has gone on all day here. ?????

The vibration in my head was so bad I couldn't think straight.

Constant vibrations.

Constant noise nearly all day and continuing into night--this is very wearing came over low

Vibration, ear splitting noise off and on all day. I was working outside part of the day and it was difficult to have a conversation with my employee. Very exhausting and upsetting

Came over low and was loud enough I had to cover my ears.

Walked with a friend, South end of Lopez. Suddenly two growlers overhead. Could NOT HEAR EACH OTHER the jet roar was SO LOUD. This is Navy ABUSE.

Rumble off and on most of the day

Roaring, house rattling, things shaking, today, and earlier this week. Destructive on so many levels. Stop this dreadful noise pollution.

Many blasts this evening, almost constant until shortly after 8pm. Could not sit outside and carry on conversation around a fire due to loud Whidbey noise.

All afternoon, roaring. Dreadful almost constant roaring. Deeply unsettling and disturbing. Extreme noise pollution.

Roaring, shaking the house, deafening roaring. DREADFUL NOISE. Very disturbing,

Off an on loud rumbling

Hours of extremely loud roaring. Shakes the house. MISERABLE horrible noise. Destroys all peace in the environment, drowns out ALL other sounds. Vibration rattles body as well as house.

Starting where they left off most of yesterday. Another day of noise?

Repeated low flying roar, scaring and shaking every person and animal in the house. Lamps shaking.

More than 12 hours straight, still going on at 8:30 pm. The dog is cowering under the deck from 12 hrs of "thunder." We chose this area because it was supposed to be quiet. It's like living under an airport.

10/1/18, Mon S. LOPEZ: Overflights - Everything shaking. Deafening

10/1/18, Mon S. LOPEZ: Another overflight. Blast!

10/3/18, Tue S. LOPEZ: Steady noise all day. This is a war training zone.

10/4/18, Thur S. LOPEZ: Overflight 78.2 in the house. It's easy to understand why all the windows facing NASWI have broken seals. Everything shakes.

10/5/18, Fri S. LOPEZ: 90.3 decibels - in the house. Unreal that our legislators ignore this. Wish we could export this noise to their homes.

10/5/18, Fri S. LOPEZ: 8:34am - 72.9 dBA in the house. 8:38, 9:18, 9:45, 9:56am Time to leave home for sanity.

10/5/18, Fri S. LOPEZ: 10:02 - 11am PERIODIC HUGE BLASTS! All in the 85 decibel range. INSANE!

10/5/18, Fri S. LOPEZ: Yet another BLAST!

10/5/18, Fri S. LOPEZ: More BLASTING - no way to get away from it

10/9/18, Tue S. LOPEZ: 76.2 in the house - overflight

10/9/18, Tue S. LOPEZ: Agate Beach - visitors literally ran for their cars. . . the noise was so HUGE. 86.2 DECIBELS - OVERFLIGHT

10/19/18, WED S. LOPEZ: RELATIVELY QUIET DAY punctuated by steady roaring - very disruptive

10/11/18, Thur S. LOPEZ: 8:30am - walking BECAUSE - NASWI is supposed to not be doing FCLP's until evening. Yet here they are: Huge Blasts and ROARS: 9:00am, 9:55am, 10:07am, 11:37am, 11:47am, 11:50 am, 11:55am, 12:17pm - 1:02pm. Sounds like FCLP

10/11/18, Thur S. LOPEZ: Constant Roar

Oct. 12, 2018, Fri, S. Lopez: Walking Chadwick Marsh. HUGE PAINFUL NOISE FROM GROWLER OVERFLIGHT

Oct. 12, 2018, Fri, S. Lopez: ANOTHER OVERFLIGHT over Natl. Monument lands- Chadwick Marsh

Oct. 15, 2018, Mon, S. Lopez: 9:37 - 9:50am - WALL OF SOUND- solid roars - sounds like runnups. No mitigation, NO baffles, completely crazy making!

Oct. 15, 2018, Mon, S. Lopez: 11am - 11:20am - MORE ROARING!!!

Oct. 15, 2018, Mon, S. Lopez: 8PM - 8:30PM . GROWLER NOISE STARTED AT 9:37AM THIS MORNING . It's still going on. Inslee, Murray, Cantlwell, Larsen - we need your help to restore our peace and quiet. We didn't sign up for a war training zone!

Oct. 16, 2018, Tue, S. Lopez: Overflight - 79.2 decibels in the house HUGE HOUSE SHAKING NOISE! Steady roar 10:12 am- 12:30pm

Oct. 16, 2018, Tue, S. Lopez: 6pm - 8:03pm SO MUCH NOISE! FCLP's should never be in residential areas. Shame on our legislators.

Oct. 17, 2018, Wed, S. Lopez: Overflight - 73.6decibels in the house

Oct. 17, 2018, Wed, S. Lopez: 1 pm - 3:30pm Heavy noise - very difficult to endure

Oct. 18, 2018, Thur, S. Lopez: 10:10 am - 2:17pm - 4 hours of ghastly noise . Noise canceling head phones don't touch it. torture.

Oct. 18, 2018, Thur, S. Lopez: 2:28pm - 6pm Steady noise 75 - 80 decibel range total of 7.5 hours of noise today - so far. . . more to come

Oct. 18, 2018, Thur, S. Lopez: 6:20 - 8:06pm TOTAL OF 9 HOURS OF GROWLER NOISE TODAY

Oct. 23, 2018, Tue, S. Lopez: 2:30pm - 5pm Steady FCLP ROAR for 2.5 hours. So difficult to live with. 65 - 72.8 decibels in the house.

Oct. 23, 2018, Tue, S. Lopez: 5:30pm - 7:05pm Another hour and a half of noise - Steady and loud as only a Growler can be. Another night of noise canceling headphones

Oct. 24, 2018, Wed, S. Lopez: WHY y is NASWI doing an extremely loud run-up at 4:52am IN THE MORNING?!!

Oct. 24, 2018, Wed, S. Lopez: WALKING - blanketed by a 90 decibel Screaming ROAR. FOLLOWED BY: 9:36AM, 11:03, 11:45, 12:17 (HUGE BLASTS), 12:20 - 1:15 Steady Roar. All that's missing are the bombs.

Oct. 24, 2018, Wed, S. Lopez: A series of HUGE vibrations - more felt than heard. . . everything is shaking. . .82.7 decibels on C scale

Oct. 24, 2018, Wed, S. Lopez: 78.3 decibels in the house. Over flight heading East.

Oct. 24, 2018, Wed, S. Lopez: 2:12 pm- 5pm. Allmost 3 hours of Blasting and Roaring

Oct. 24, 2018, Wed, S. Lopez: 6:30pm - 9pm. Another ghastly day in the WAR TRAINING ZONE WHICH STARTED AT 4:52am.

Oct. 25, 2018, Thur, S. Lopez: 8:35am - The Growler noise begins again - after almost 12 hours of screaming Growlers yesterday - what will we have to endure today?

Oct. 25, 2018, Thur, S. Lopez: 9am, 9:20am, 9:27am through 10:30am Constant BLASTING AND ROARING. Schedule says no FCLP until mid afternoon and then into night. The Navy seems unable to update or follow their own schedule.

Oct. 25, 2018, Thur, S. Lopez: 11:45am - 12:32pm ROARING, BLASTING AND OVERFLIGHTS sounds like FCLP but, of course, it's not on the schedule. The Navy seems to be unable/unwilling to follow their own schedule.

Oct.25, 2018, Thur, Cross Rd, Lopez: 12:45pm, 12:52pm, 2:25pm. OVERFLIGHTS OF NORTH LOPEZ. 25 miles north of NASWi and the noise is intrusive and constant!

Oct. 26, 2018, Fri, S. Lopez: 8:15am, 8:37am, 8:45am DEEP LOW ROARS - Shaking everything. 45 decibels on A scale - 82 on C scale. This is the ROAR that shakes internal organs. I wish someone would PROTECT US FROM THE NAVY.

Oct. 26, 2018, Fri, S. Lopez: 9:01am, 9:05am, 9:07 - 10am OVERFLIGHTS AND BLASTS. Walking in the neighborhood because Growlers are not supposed to fly until afternoon. Not true! They are blasting away and noise canceling headphones do not mute.

Oct. 26, 2018, Fri, S. Lopez: 12 - 12:30pm continuing LOW ROAR. Once again, the Navy is not following their schedule.

Oct. 27, 2018, Sat, S. Lopez: Walking Natl. Monument lands 8:25am, 8:40am, 8:42am 9:11am Very, very disrupting. . . A true war training zone with SCREAMING, BLASTING JETS.

Oct. 29, 2018, Mon, S. Lopez: 8:25am. 70.8 decibels in the house. No FCLP's sched for Oct 29 - Nov 4. An opening BLAST at 8:25am is not hopeful. . . more noise to come.

Oct. 29, 2018, Mon, S. Lopez: 10:45am, 11:07am 11:55am - OVERFLIGHTS AND BLASTS. Walking on Natl. Monument lands - not peaceful !!!!

Oct. 29, 2018, Mon, S. Lopez:1:15pm - 1:25pm LOUD ROARING followed by 2:15 - 2:45 STEADY ROARING. Totally crazy making.

Oct. 29, 2018, Mon, S. Lopez: 6:30pm and 7:24pm MORE ROARING.

The loud noise was heard from inside the house even with all doors and windows shut!

and 10:46am, 11:15am and others

Oct. 30, 2018, TUE, S. Lopez: 9:34am, 9:46am This is a week with zero FCLP scheduled and yet we experienced Growler noise and Blasts from 9:30am - 7:21 pm. 10 hours of erratic BLASTS, ROARS, OVERFLIGHTS AND RUMBLES - Where to go to get away?

Went outside to hear the birds but all I heard was your rotten jets. Again.

Flight right over the house west to east. Extremely loud and long lasting noise ANOTHER LOW FLYING GROWLER OVER LOPEZ VILLAGE!

multiple fly overs beginning at 10:45 and continuing for at least a half hour.

The loud noise was again heard from inside the house even with all doors and windows shut!

Home unusually early from work and hoping to enjoy the peace of Fidalgo Island, Anacortes near ferry but no, sounds of warcraft about to ruin early halloween eve,

Also very low flyover 10:47am, 11am 11:11am, 2:16pm and others

Oct. 31, 2018, TUE, S. Lopez: 9:44am, 9:46am, 9:48am, 9:57am, 10:45am, 12:47am Deep Rumbles and BLASTS.

This report is submitted by: www.quietskies.info.

Users of the County Aircraft Noise Reporting website enter type of loudness, date, time, comments, aircraft type, etc. Due to the variety of devices used to submit data (e.g. desktop, laptop, I-pad, smartphone), data such as time of day can be recorded differently. Efforts have been made to standardize data; errors in totals are estimated to be less than half a percent.
