

Jet Noise Report March-April 2021

Since 2015 an increasing number of jet noise reports are being made from residents of the Salish Sea region, using the San Juan County Aircraft Noise Reporting Website. This report provides data broken out by reports generated inside San Juan County and outside.

With the addition of 36 more Growlers in 2019, the region has been bombarded. Total jet noise reports within San Juan County grew 26% from 2019 to 2020. Noise reports from outside of San Juan County have rapidly increased.

The first four months of 2021 indicate a 62% increase in jet noise reports from the first four months of 2020.

Listen to this jet noise that we hear in our region:

<https://soundcloud.com/laurenkuehne/clearwater>

The Navy dismisses noise data:

<https://www.seattletimes.com/opinion/navy-should-use-our-data-on-growler-noise-not-dismiss-it/>

Here are some of the comments submitted by residents of our region regarding Jet Noise. More comments from Anacortes, Camano Island, Mt Vernon, Port Townsend, Coupeville and the San Juan Islands, begin on page 11. They tell the human story. Please read them.

- I have measured the noise of the Growlers as they pass over Ledgewood Beach in Coupeville WA at 95.5 dB. Too Loud for our community and the environment.
- Made sitting outside in my yard unpleasant. Turned on radio to block the sound inside my house. I am a vet with ptsd. This affects my ability to relax. The sound causes anxiety.
- "I am an art therapist working with developmentally challenged kids on Orcas island - we were in the woods when the earth started rumbling and the kids were very scared. feels like an earthquake and disrupted the class and the kids for hours."
- Very loud over North Beach section of Port Townsend
- Few times today already- the familiar, scraping metallic sounds of growlers, through the roof, over the hvac. It has the quality of metallic fingernails on a chalkboard. Ugly sounds. Heard in our place of healing. Medical clinic in Mt Vernon.
- This evening the jets have been unceasing and irritating in the Fort Worden area.
- Second time this morning with the windows rattling, the kids scared, the baby crying. Enough.

INSIDE THIS REPORT:

-  **Annual Comparisons**
-  **Monthly Comparisons**
-  **Report by Location**
-  **Reports by Type of Noise**
-  **Noise by Time of Day**
-  **Reports by Day**
-  **Map of Report Locations**
-  **Comments submitted with each report, revealing human impacts**

The San Juan County Aircraft Noise Reporting website was approved in 2014 by the County Council for people to have a reliable place for recording their reports and comments. Data reports began in 2015.

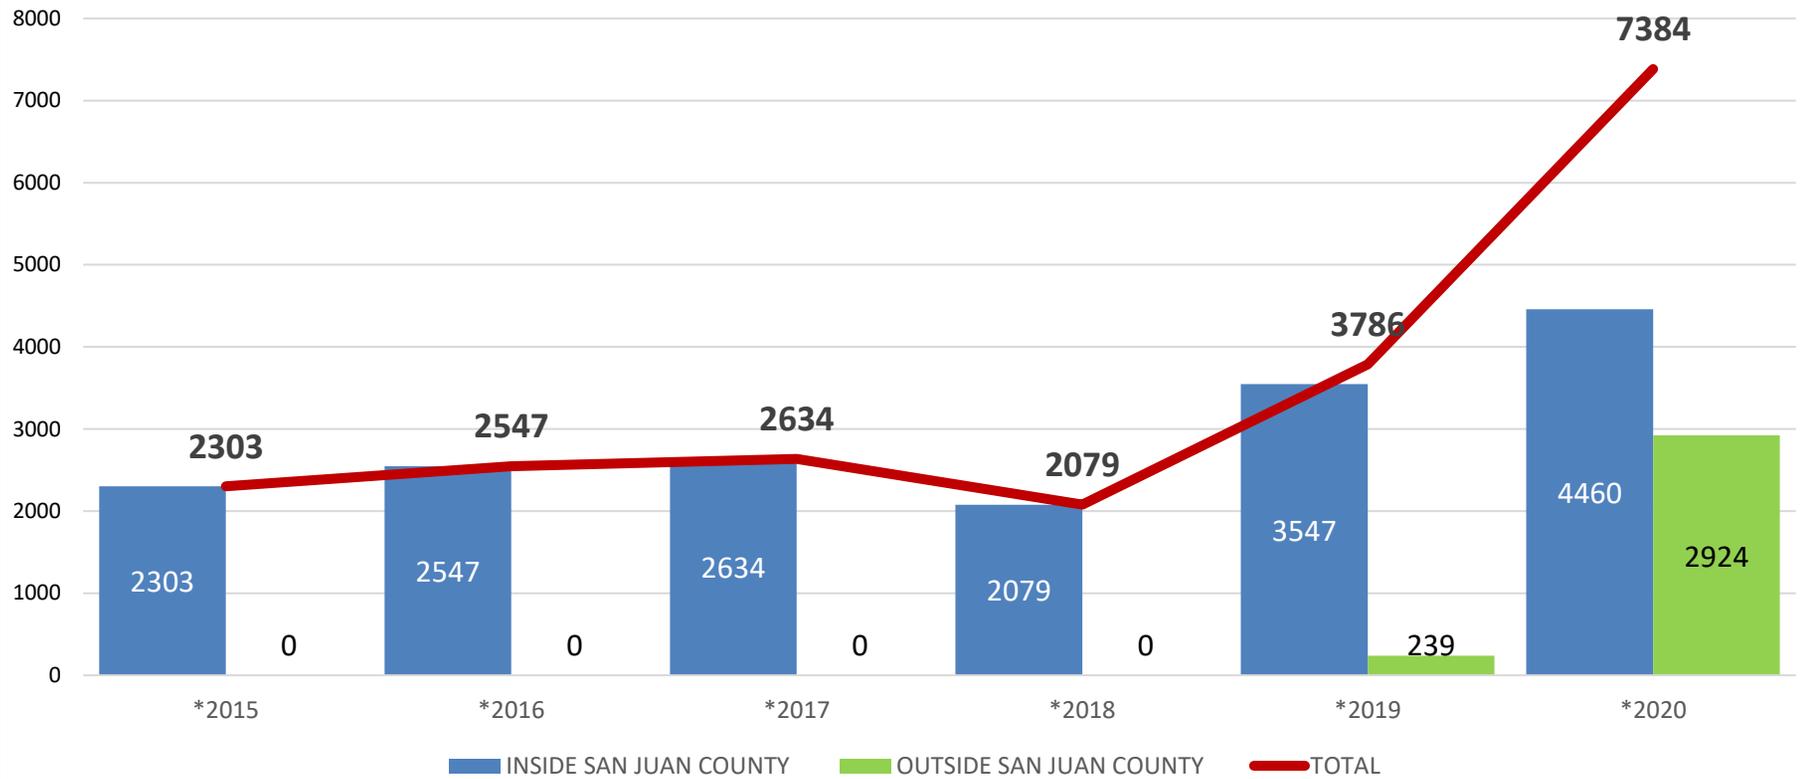

gis.sanjuanco.com/aircraft-noise-reporting

In October, 2019, permission was given for people outside of San Juan County to use this noise reporting website. We are seeing an increasing number of reports from the wider region.

This report is compiled by Quiet Skies:

<https://www.quietskies.info/>

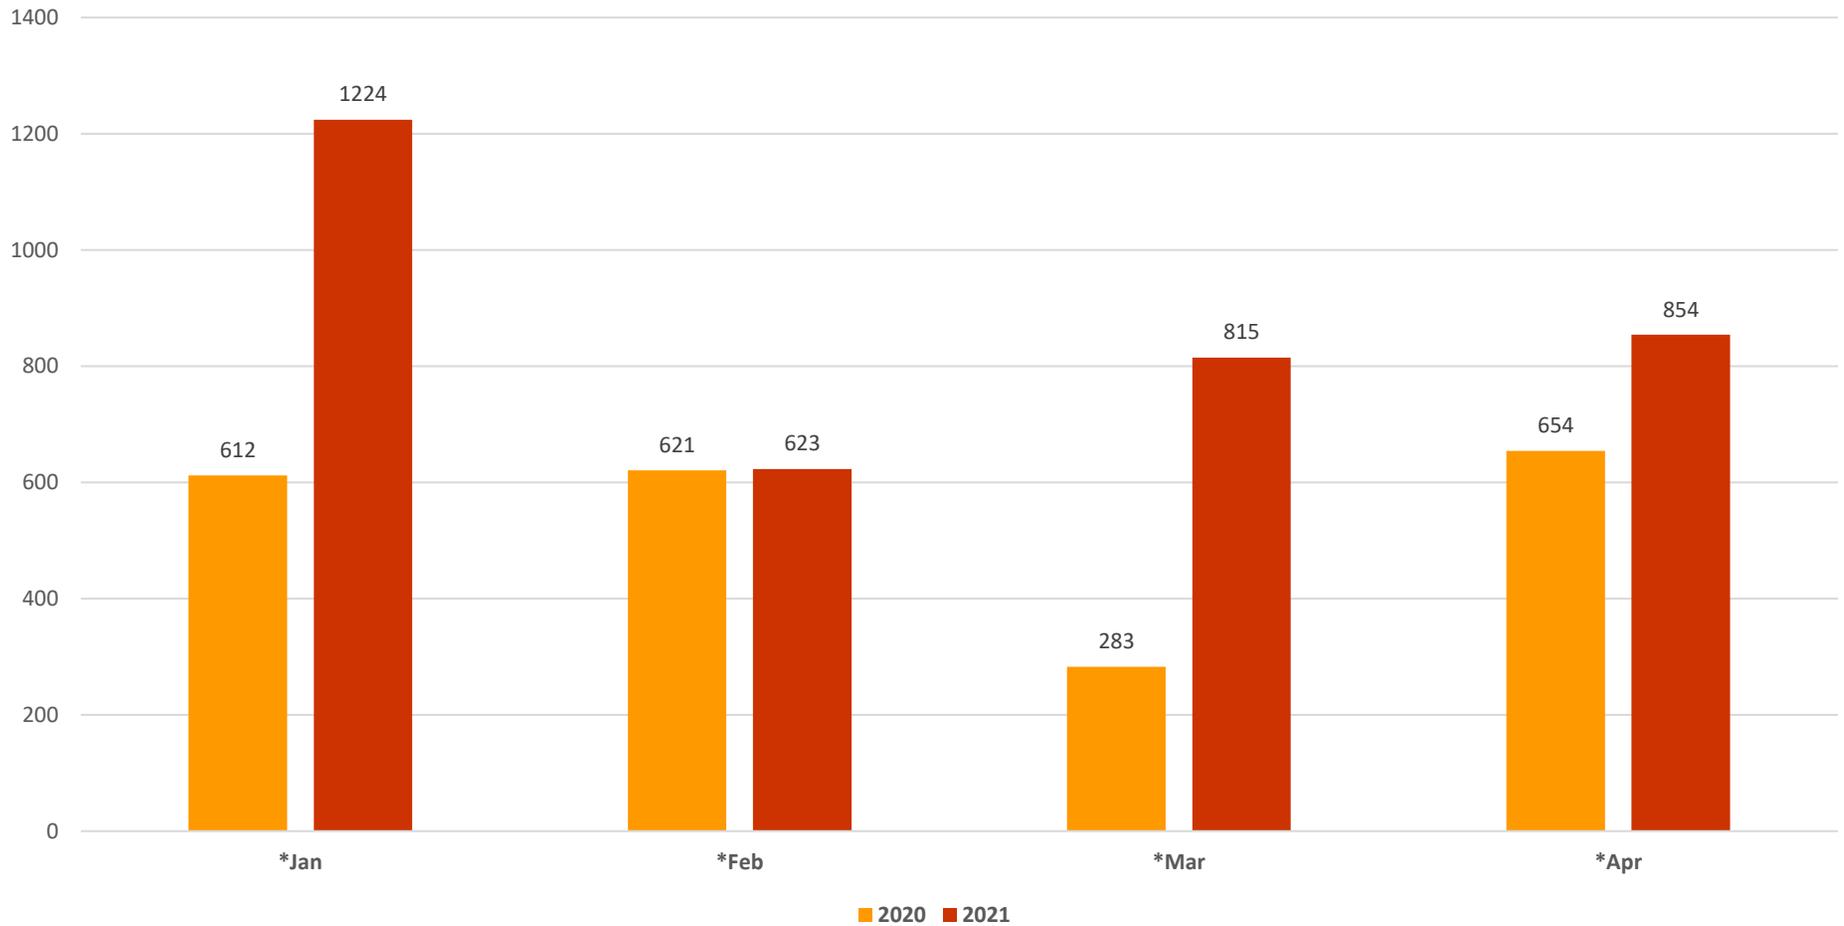

Annual Jet Noise Reports 2005-2020 By Location

This chart provides some background to the history of noise reporting.

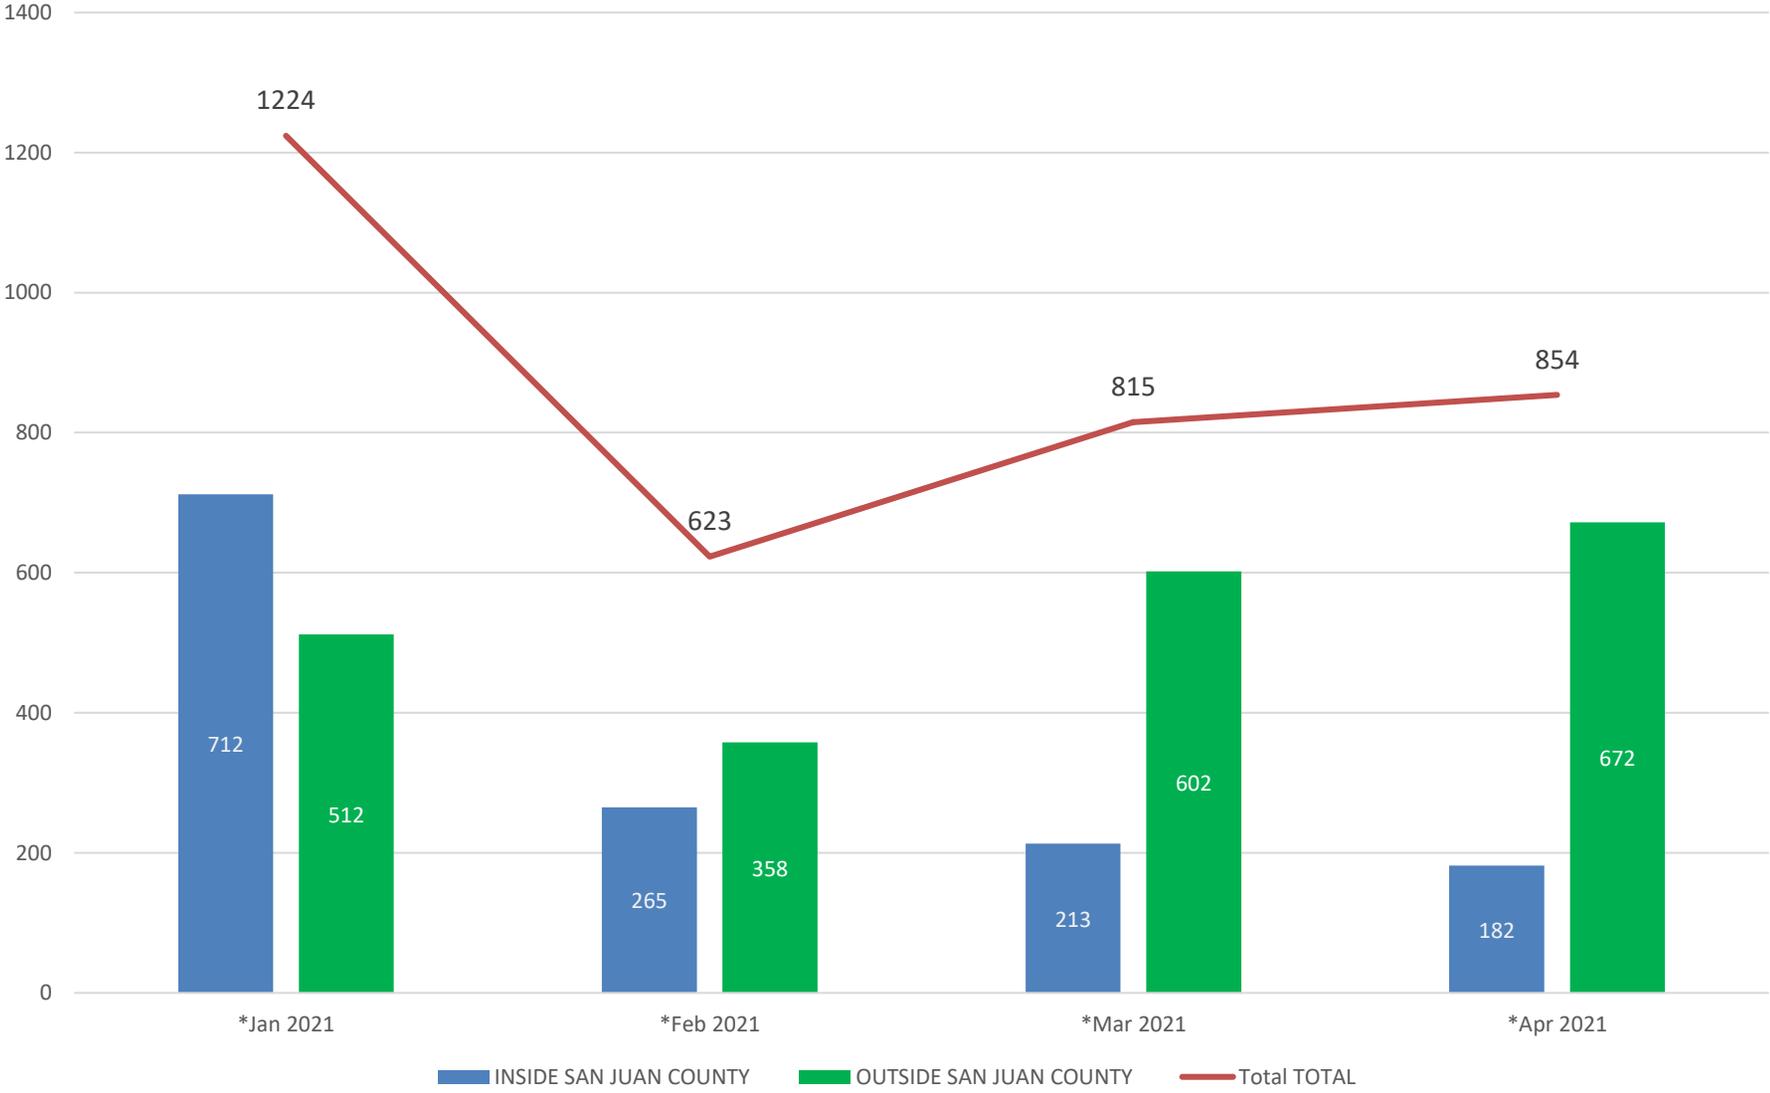

Jet noise reporting began in 2014 when San Juan County implemented a website for reporting jet noise. Data collection began in 2015. In the Fall, 2019, access was expanded to people outside of San Juan County enabling them to enter jet noise reports with the result that the number of noise reports is increasing, as has the number of aircraft at NASWI. This chart provides the simple totals of all noise reports in the database since 2015 through 2020.

Jet Noise Reports - From All Locations Comparing January - April 2020 to 2021

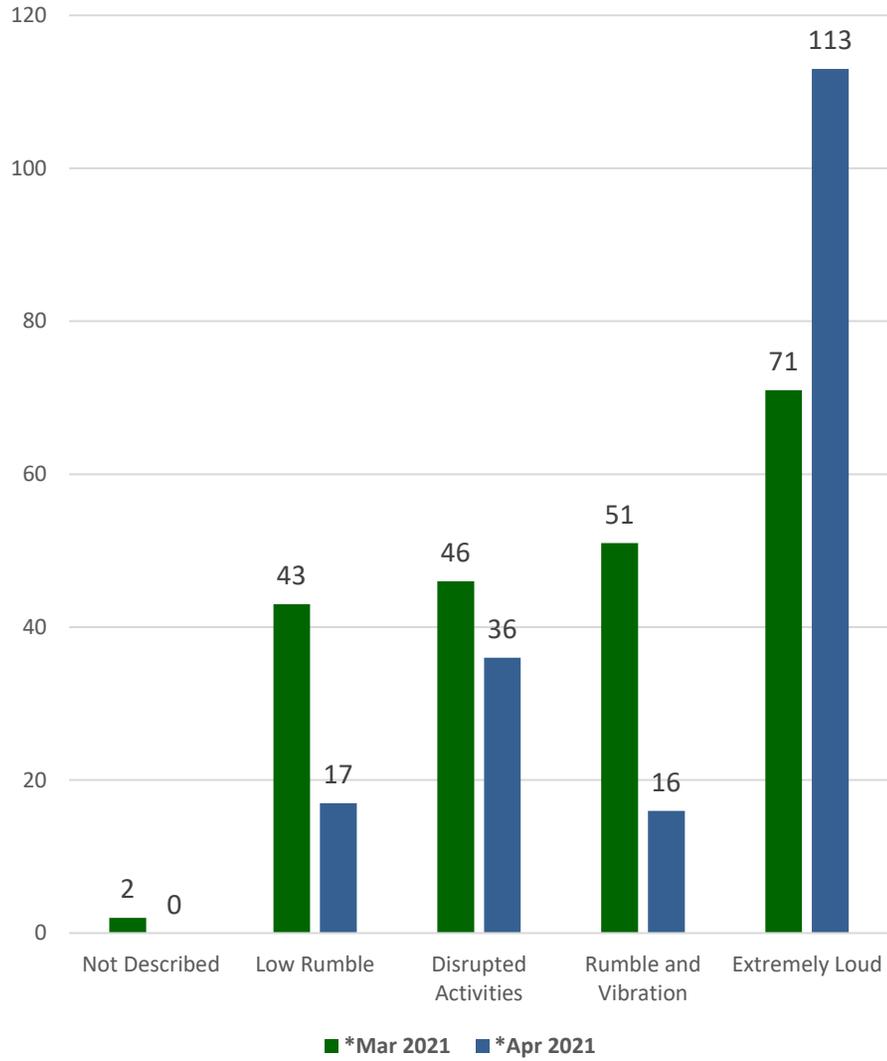

This chart includes all locations of reports.

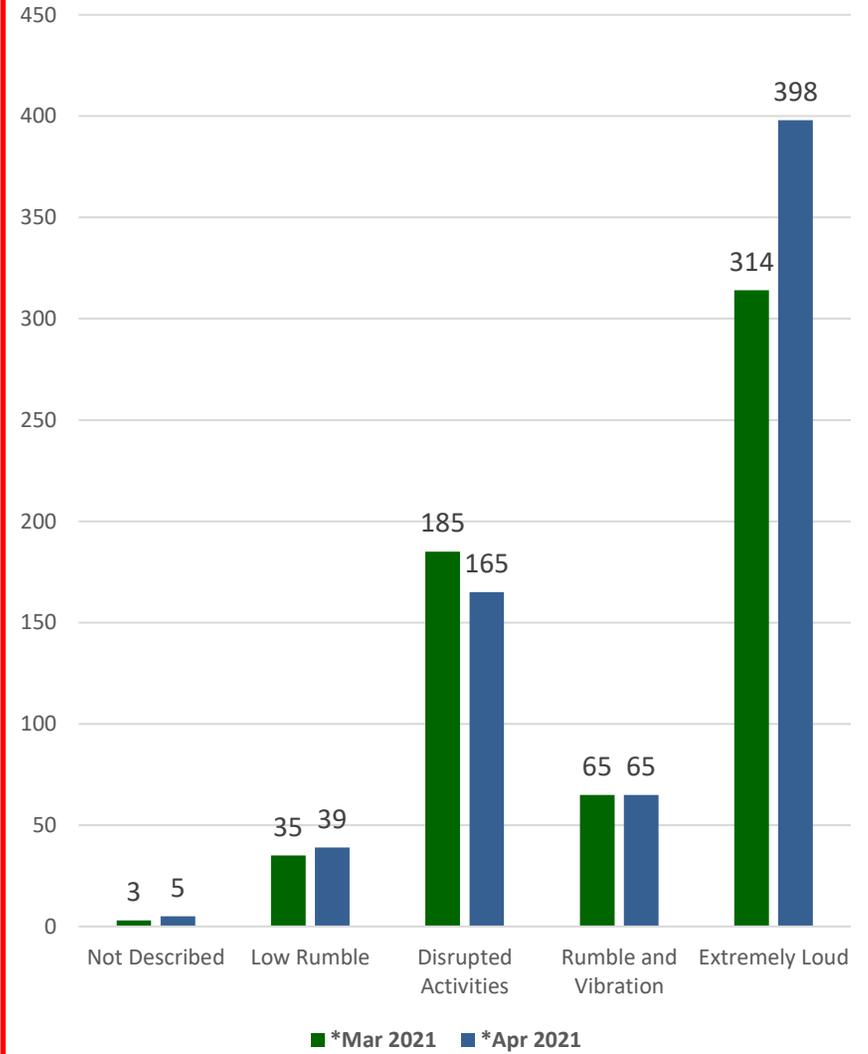

Jet Noise Reports by Location January - April, 2021

Jet Noise Reports by Type of Noise
INSIDE San Juan County
 March - April, 2021

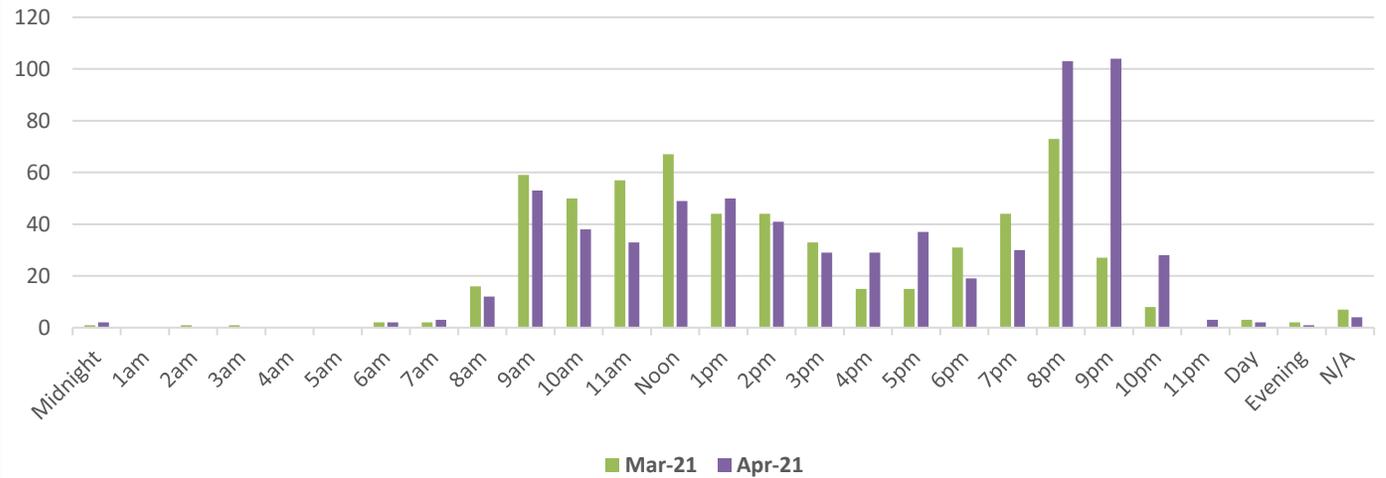

Jet Noise Reports by Type of Noise
OUTSIDE San Juan County
 March - April, 2021

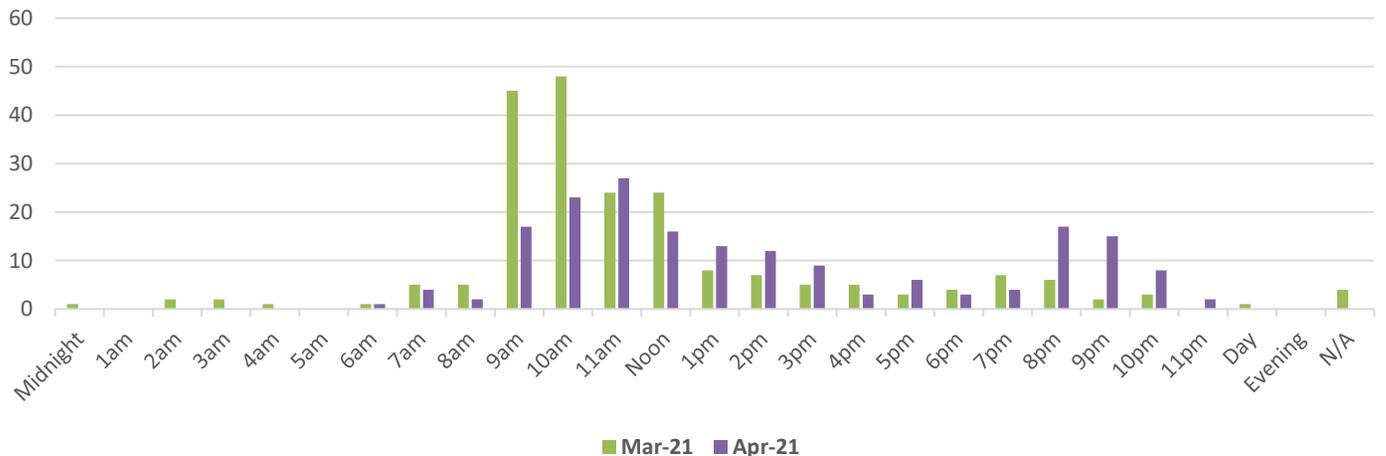

For example, submissions that report noise 11:00 am through 11:59am are clustered in the 11 o'clock hour. Sometimes reports do not include a specific time. For those, related data may indicate Day or Evening noise disturbance, or Not Available.

Note that there are hours of varying noise incidents. The Navy persists in using "annual noise averaging," significantly underestimating of the impact of jet noise. There is no "average" noise felt by residents in this region. The noise is variable and unpredictable.

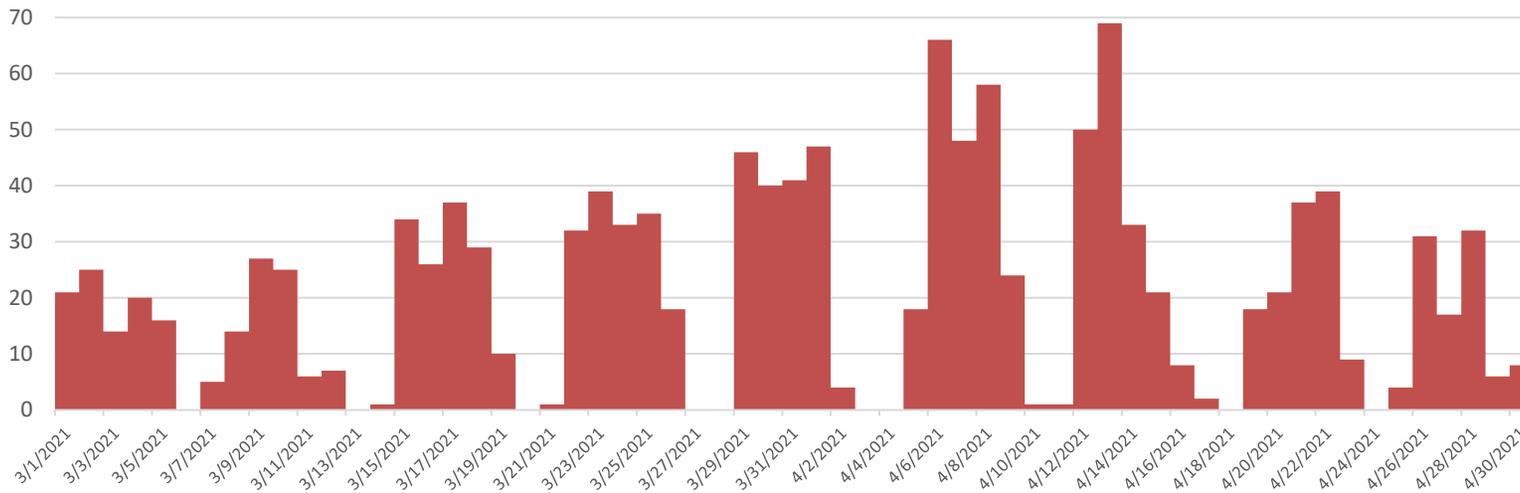

Jet Noise Reports by the Hour **OUTSIDE San Juan County
March - April, 2021**

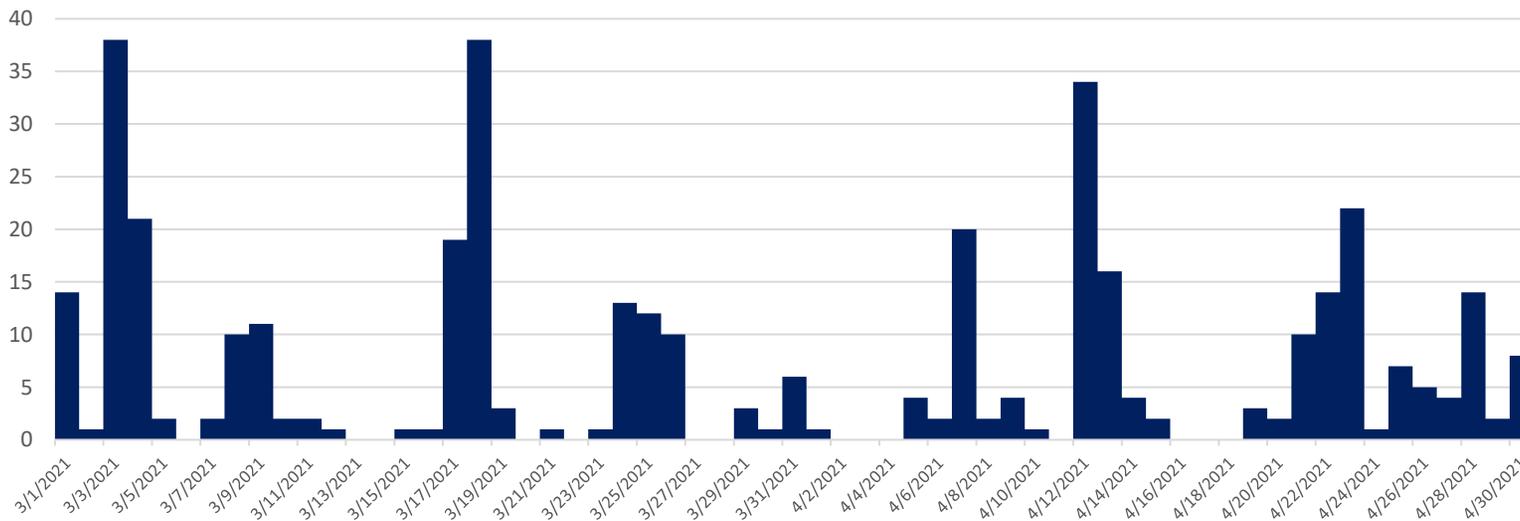

Jet Noise Reports by the Hour **INSIDE San Juan County
March - April, 2021**

Jet Noise Reports by Day **OUTSIDE** San Juan County: March - April, 2021

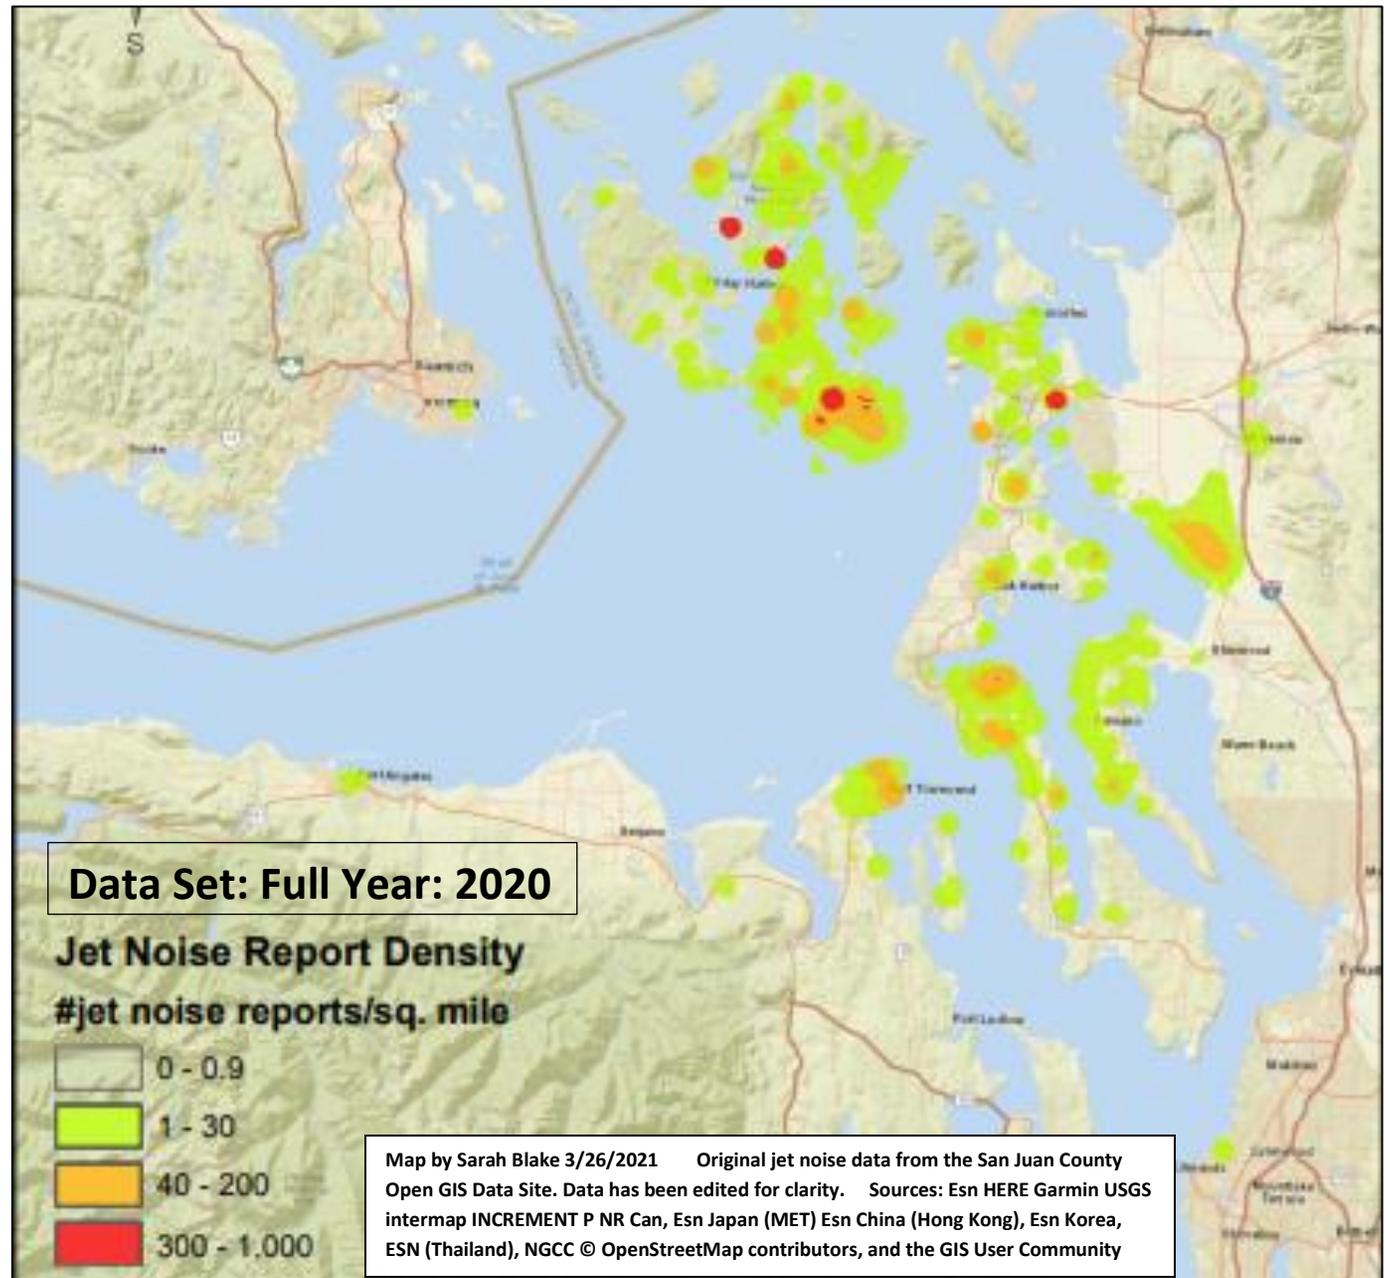

Jet Noise Reports by Day **INSIDE** San Juan County: March - April 2021

Another example: As described in the previous chart, the Navy persists in using “annual noise averaging” to justify its statements of low impact. As you can see in this chart, there is no “average noise” felt by residents in this region. The noise is variable and each day is unpredictable.

This is a “density map” of jet noise reports for 2020 only. For the sake of visual clarity, this map focuses on a limited area, though jet noise data come from further afield, including more of the Olympic Peninsula.

Comments Submitted with March and April 2021 Reports

NOTES:

Some reports indicate decibel level. Lawnmowers, for example, generally produce 90 dB.

Some of the people who submit a noise report also list their home address or phone number or e-mail. In this report, those personal identifiers are deleted/modified, as are expletives.

I have measured the noise of the Growlers as they pass over Ledgewood Beach in Coupeville WA at 95.5 dB. Too Loud for our community and the environment.

We may as well have the Growlers stationed in town in Coupeville. They could just use HWY 20 as their runway. Absolutely sick and tired of the noise.. SICK OF IT

Almost 10pm and the sky to the south is still thundering, rumbling and shaking. Horrendous, sinister earthquake sounds- like the end of the world is there. Awful. Anacortes

I was on a call and unable to hear the person speaking. This was incredibly loud and disruptive. With everyone working and schooling from home, aircraft noise makes it very difficult to have online meetings. Thank you for your concern.

Loud rumbling all morning over several hours today

Multiple flights that interfered with the ability to hear normal speech. We came for the bird life, and what we were confronted with was jet noise. The promise by the Navy when they did the EIS was the jets would be too high to hear. They lied.

Another's east west transit, smashing the peace of its citizens

"97 dB

Almost 8pm, we have endured 11hrs of nearly constant piercing noise from this Navy

Roaring from Whidbey jets. Noise overwhelms ALL other sound. Noise & vibration destroy the environment for terrestrial & marine life. DREADFUL, STRESSFUL sensation from noise & vibration caused by growlers. SHAME ON POLICY MAKERS WHO ALLOW THIS NOISE

Heard through the office building ceiling, no windows here, shaking the floor a little, sounds like a giant metal scraper on the sky- metallic fingers on a chalkboard. Medical clinic in Mt Vernon. Disruptive creepy sounds. Mid Day.

Flights over Race Lagoon are measuring over 90 dB inside the home (windows closed) & over 110 dB with windows open - above the EIS & Navy guidelines. It is disrupting my work (even with windows closed). For those in their yards, it is dangerous.

97db inside house with windows closed. Flying directly over house; just clearing fir trees.

Garbage!!!

Harmful acoustic energy emissions are forcing people to seek shelter.

PAINFUL. ROARING WITH DEEP ALMOST SUB-AUDIBLE VIBRATION. ABSOLUTELY AWFUL.

The roaring this a.m. has a particularly unpleasant percussive quality. Hard to describe, like someone beating on drums inside my ears & body. Truly horrible. Current science shows clearly: growlers affect marine animals to depths of at least 100'

It's 9:00 am.. like the sun rises, here come the jets. A peaceful morning shattered. An almost daily reminder of the noise we'll likely face for the day.

Just like clockwork, hereto destroy the peace of the citizens they have sworn to protect. What heresy!!!

Peace on Friday's are all but a thing of the past. What's next? The weekends too?

Thank you for destroying our peace , war mongers!!!

They're so loud I can hear them flying at Ault field here in Coupeville.

8 pm at night, what everyone wants to hear is GD jet noise

Let's do three jets in tandem, because one alone can't destroy our peace sufficiently

Low roar, flying over town and/or out at OLF, traversing between Ault field, Coupeville and beyond. Every time I have to stop and report those jets means they've disrupted activities.

"A lot of engine runups from Ault thus morning starting somewhat after 8 an

Some extremely loud and house shaking"

all morning, roughly 15 minutes apart, sounds and feels like chimney fire , Trying to complete complex task, short circuits thought process, elevates stress

Second time this morning with the windows rattling, the kids scared, the baby crying. Enough.

Super loud and constant noise around 10 - 11 am. Trying to get outside to walk the dog but the noise was oppressive and freaked out the animals.

The low fly over was a either a military cargo or refueling aircraft. VERY LOUD!

Very loud, every 20 minutes or so, rumbling and vibrating all morning. Disruptive!

Again and again, over and over smashing our peace and quiet. We could easily be mistaken for an active War zone.

"I am an art therapist working with developmentally challenged kids on Orcas island - we were in the woods when the earth started rumbling and the kids were very scared. feels like an earthquake and disrupted the class and the kids for hours."

Saw F type fighter jet flying low and slow over Friday harbor toward Bellingham.

Very disturbing engine runups since before 10 an

WTF!!!! So low over Orcas! NO. Please. Stop.

5 Days a week, multiple times a day our peace is ruined by the Growler jets.

RATTLING WINDOWS, RATTLING MY BRAIN. PLEASE STOP!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Would love to play piano in peace. NO WAY with the damn jets smashing our peace.

PLEASE STOP BLASTING RESIDENTS WITH YOUR ELECTROMAGNETIC WARFARE

Single aircraft made several low passes over Shelter Bay homes.

Trying to be outside. Forced to go back in because of continuous very loud jet noise

"Two jets flying in tandem very low over the house here in shelter bay.

Made several passes"

Coupeville peace smashed over and over today

Just had the jets fly over for what felt like 10 minutes straight. Roaring in loud waves. Unable to sleep. Just got my covid vaccine yesterday and am exhausted with a fever. Need rest but cant with the stress from the noise.

Loud persistent aircraft from morning until night. It's 8:30 p.m. and no sign of it stopping.

Was about to go for a walk around the neighborhood and decided not to. Too loud to be outside without hearing protection...

Cuts off our antenna TV reception.

An absolute desecration of a formerly peaceful Sunday evening in Anacortes. Sounds like WWII. These aircraft make sounds of multiple explosions to the south. Shaking the back of my house. 8:45pm 2nd wave tonight. This is hideous. This is abuse.

Coupeville, not enough to have our peace smashed throughout the day , all day, now we get a blast at 9:32PM. No respect or concern for the citizens from theNavy.

In Coupeville, beginning the day of peace smashing Sunday night jets. Great.

Flyovers

Growler

Low flying growler aircraft disrupting my work

multiple pass overs by Growlers that were extremely loud and lasted several minutes.

Navy is apparently lost again. No where near their airport low flying looking for something strategic asset to take out? Not on Lopez!

Woke my son up from his nap and scared my dog

9:40 p.m. now & Growler noise shows no sign of letting up. I can hear it through out house. It disrupts sleep and all other activities.

As usual, I will complain every 15 minutes for as long as this goes on. Wishing I could sit outside a pilot's dining room and rev my engine for a couple hours.

Disrupting required work from home.

F*** off

Good God I am trying to sleep and you are making a hell of a lot of noise. STOP!!!!!!!

Spared the growlers tonight thank god, but every time I come close to sleep another whining, droning, vibrating P-3 lumbers by and wakes me back up. Anacortes. 10pm- otherwise nice with window cracked open

The daily horror show begins in Coupeville

Was just about to go for a quick walk and jets showed up. Could not stay outside with this noise.

Engine runups from Ault

Broadway street in Coupeville, 6:29am , unbelievably disrespectful and inconsiderate

Heard through the walls and roof far from windows, over HVAC, computers, people talking- sounds navy warcraft interrupting our day of patient care at outpatient clinic in Mount Vernon. Afternoon

Waves of migratory geese flying overhead calling with the horrific noise of jets in the vicinity. Worried about the birds well being as the jets run rampant on Whidbey.

"Exposure to excessive noise is known to cause health problems e.g.:stress, poor concentration, productivity losses, communication difficulties, fatigue, & more serious issues i.e. cardiovascular disease, cognitive impairment, tinnitus, hearing loss

Our First Lady is visiting and this is what our Navy does to show her respect. How completely outrageous

Outdoor activity 'suspended' — forced to seek shelter indoors.

The noise is horrible- but here inside the house, sitting in an easy chair the rumble they disperse makes my chair vibrate! Last night when they were flying-one plane chose to break away from the pattern and fly over the house.

Very loud. They are flying way too low. Makes it impossible to study or do other things

Woke from sleeping again

No chance of just observing wildlife and the ocean in relative quiet. God forsaken Jets just ruin every bit of peace

On a SATURDAY, over town in Coupeville. What selfish and inconsiderate acts the Navy has stooped too

I can't even keep up today, the jets are flying so frequently today. Several times in two or three formation, doubling or TRIPLING the noise!!

Every 5 minutes this pollution???

F off

F*** off

F*** you

High-power, low-altitude maneuvers make acoustic energy emissions from EA-18G aircraft very stressful for people, pets, and wildlife in the central Puget Sound basin.

I had to come inside to finish a phone conversation because I could not hear nor be heard even with our voices elevated.

In Coupeville, 8:30 pm and the disrespectful and arrogant Navy is smashing our peace.

Loud! Unnecessary after 9 p.m. SEE LOCAL NOISE ORDINANCE.....Does not apply to USN.?? WHY. The enemy within. Millions of acres of land available to USN, without assault upon the citizens the USN sailors are sworn to protect!

Loud & disruptive.

Ongoing JET noise at the OLF....

Something going on at Ault Field, we're hearing over and over again here in Coupeville.

the growlers are training today, April 12, 2021 at 8:00 pm. They circle the Coupeville Outlying Field and also pass Ledgewood Beach. I have measured them at a high of 81.7dB. To loud!

Excessively long OLF flights from around 7pm to almost 10pm. Flights going directly over homes. Children trying to study and sleep. Way too long and late to be repeatedly flying over multiple residences.

Hard to concentrate with this noise

This level of noise is unacceptable and is not good for humans or the orcas and other animals suffering through this constant noise just when the weather is getting better and we anticipate more outside time or windows open! Go somewhere remote.

Every time I have to go to the computer and report this, it's "disturbed activity." Go away!

Had to bail on our BBQ plans--the noise was so loud I went inside and turned on my white noise machine full blast and still I could hear them.

Have an early shift for work? Small children to provide a quiet time and sleep. Not with the Growlers..... wonder if the Navy pilots, sworn to serve and protect, are aware of the assault they are committing upon US citizens.?

how much fuel are you wasting? what is the point of this?

I can't even hear my TV! So sick of this noise interrupting life! I doubt that the pilots in WW II had this much practice and they did alright! It's not necessary to spend all this money to just practice flying. What's wrong with flight simulators?

i didn't move to this peaceful place to have it ruined by a few hundred fratboy jagoffs

I hope you crash

In Coupeville, we have endured 12 solid hours of nearly nonstop flights, we are SICK of it

Makes it hard to sleep.

noise pollution all afternoon and now into the evening ... constant drain of energy

since about 5pm this evening 4/13/2021, the growlers have been training. I have measured their noise at up to 87.4 dB. Too noisy. They also fly over Ledgewood Beach. Please site them elsewhere.

Starting around 6PM till 9:30PM approximately, extremely loud southern passes and turns. Until 2020 the noise was much less, the flight and turn

patterns appear to be modified. We are well beyond any noise area designations.

Shook my house!

What a great day in the NW right up until the Growler came out and made so much noise we had to go back inside. This is really insane to fly this noisy plane in such a populated area.

Noise makes it intolerable to be outside.

Too late

day three

fast and low

F-you Navy

In Coupeville, in town, massive disrespect to the citizens

In Coupeville, let's begin another day of agonizing noise

Loud low-frequency roar and rumble.

4:00ish... three jets flying over in formation. Triple the noise.

Few times today already- the familiar, scraping metallic sounds of growlers, through the roof, over the hvac. It has the quality of metallic fingernails on a chalkboard. Ugly sounds. Heard in our place of healing. Medical clinic in Mt Vernon.

I am working remotely from home. The noise and vibration is so bad that i had to cut my virtual meeting short.

Just loud and annoying

Thank you Navy for destroying our peace. You absolutely suck

Another day of peace smashing by the USNavy

Bulls***!!!!

Carrier landing practice, outdoor activity suspended. Duration, so far, 30 minutes.

I can't put a time on it... they're in and out of soundscape today, over and over again.

In phone meeting.. disrupted by jets... yet again.

Looooong loowww very loud rumble.

Out at Pacific Rim Institute, two jets destroying the peace as they fly from Ault field east to cascades

The highway in the sky now over Coupeville, the constant destruction of our peace.

A SAR Navy helicopter flying low and slow, maybe 150' above tree tops over Coupeville.

All day we've endured your Jet noise. The incessant noise is intolerable. The navy is not being kind to the citizens they serve!

Beginning just after 9am this morning, these inconsiderate SOBs have pummeled us with overhead noise , we're going on 12 GD hours of this nonsense.

For almost an hour, from noon until almost 1 pm the jets have been out at OLF. The noise has been grating since they've been out there. I can hear them in my home even with hearing protection. My concentration on work is non existent because of them.

Huge flock of migratory geese flying over Coupeville..... here come the jets, again. Disturbing human peace and a safe passage for these birds birds.

"I continue to hear jet noise day after day late into the evening hours. I always note the time because I go to bed early.

I consistently hear jet noise past 8pm. I am a new resident to the area and can't believe how often they fly."

Just home from a stressful day of work in the Skagit Valley, Mt Vernon- ready for some peace, but already, home 10 minutes and there is metallic roaring in the heavens. Anacortes 6:30pm

Multiple jets flying at higher altitude, flying slow for a loooooong, rumbling noise event. Absolutely horrible.

Navy SAR helicopter, very low over town. Just over tree tops, estimated 150' above trees. Headed to OLF. I'm convinced that the Navy's goal is to attempt to pummel the citizens of Coupeville into silence.

Time for peace, time for rest, time for sleep and the heavens thunder, some closer and some far away- navy pummeling Coupeville. It is abuse and it causes harm. Anacortes nearly 9pm

Today is an official onslaught of terror

Today is an official onslaught of terror

Toxic FCLP

Flyovers all day. This one egregiously loud

Lots of flyover noise this am

Loud, invasive roaring roaring roaring. Horrible, disturbing, destructive noise. HORRIBLE

Not quite as loud today. But constant. Non stop. Can't hear the birds

Beautiful day disrupted by jets. Also map isn't working

Extremely loud, vibration through the house. Unacceptable, without exception!!!!!!

Horrible, sinister, threatening, thundering roaring from the south. This is assault and battery of the landscape and its people and creatures by the US navy. Treating us as enemies. Anacortes 6:30 pm

Ongoing flights at OLF and over Town of Coupeville. Disruptive, loud, grating.

And here we goengine noise drowning everything else out

Deep rumbling and vibrations. Sometimes it's like living in a war zone. Many of us have gotten to really hate 'our' military.

Disrupted online classes

Enough of a rumble to interrupt concentration!

Growlers very busy

Multiple times this morning. Also low rumbles throughout the day yesterday. Interrupted my work concentration.

Noisy Activity all day. Wears one down

Roaring roaring roaring, all morning. Horrible noise.

"SO

MUCH

ENGINE NOISE"

Sustained engine noise over a long period of time

In Coupeville, it's never too late to have your peace and quiet destroyed by the Navy

In Coupeville, smashing our peace

No sleep with this noise!! Thanks so much.....

Seriously- 8:15 pm on a FRIDAY with shaking, vibrating, foul sounding thunder bespoiling the end of the day. Going on for many minutes so far. Unconscionable. Anacortes.

Bloody hell! X 3!

In Coupeville, raging noise yet again to smash our evening peace

"No Sleep tonight....AGAIN.

wonder if the pilots know how they are hurting the citizens they have sworn to defend and protect?"

We were trying to sleep. Lasted several minutes

The navy has been pretty well behaved lately, but going on and on relentlessly late tonight.

9:49pm. Thinking it is time to sleep, but there is jet noise thunder from NASWI. April 21. This is NOT RIGHT! Does the Navy lack sense? Locating loud roaring jets in a populated area. NUTS!!!!!!

Can't even hear the tv

FCLP

Growlers show up and we could not hear the NCAA tournament's commentators. Had to turn up the volume significantly so we can hear it.

In town in Coupeville, we are SICK AND TIRED of your racket Navy!!! Get lost !!!!!

Over town in Coupeville, 12 times already today we have had peace shattering growlers flying the east west pattern over town. Not OLF flights. We have become a dumping ground for the navy's noise.

Too loud to sleep again. Too tired to function at work.

Blasting us with complete disregard for our right to peace

I just went outside not 15 minutes before they began flying around the perimeter of our home. I hate this- and will try to work inside with noise canceling headset while they 'do their thing1' The other day recorded 92 decibels inside house!

So begins the onslaught of our peace

2 Growlers overhead and banking loudly!

2 pound Growlers overhead

Loud jet interfered with business call (twice in half an hour).

My poor guests - subjected to Ault noise

Rattling the house engine testing from ault

"Vibrating the windows and chair I'm sitting on

Engine noise from Ault"

Almost 13 hours of intermittent jet noise today. Absolutely intolerable.

Really? Is it really necessary to destroy our quiet this late at night? Is there a war going on? These SOBs started flying over our home at 8:32 am today. I have counted at a minimum 14 flights over the town of Coupeville. It's insane making.

Another jet passes over, headed east. Climbing through the peaceful sky obliterating the peace that we used to take for granted. Navy,, you are not welcome any more here. You have become as terrible a neighbor as a terrorist group.

Disrupted video conference.

.... and F* you a second time**

Can hear the jets in Coupeville as they start their engines at Ault Field. Another day of noise.

F* off**

More noise from Ault field this morning.

More noise in Coupeville from Ault field.

More noise in Coupeville from the jets at Ault field.

Really loud right over our house.

Could be heard rumbling across the Marine Sanctuary

Disrupted online class presentation

Gosh, what a lovely, peaceful Sunday morning it was- until the jets came screaming overhead. Thanks Navy! All due to your bloated budget and bloated arrogance. So nice of you to remind us you're here.

Loud Growler noise this morning.

In Coupeville , thank you Navy for smashing our peace again

Over town in Coupeville again, low fast and loud. After 9 pm??? You suck Navy

Disrupted lunch, scared pets. Seemed especially low flying.

"Extremely loud, long-lasting Growler noise. One after another. Maddening!

Flying

Noise of jet was so loud we could not hold a conversation.

Several flew over yesterday too, but I didn't get a chance to report them.

FCLP over Oak Harbor is adversely impacting Central Whidbey.

It was so peaceful until now- I am exhausted from work , ready for bed 9pm in Anacortes and up starts the awful shaking rumbling of Warcraft practicing for war- echoing through the sky. Horrid and abusive.

"still practicing landings?

Audibon Society: " We will have very large migration numbers the next three nights, with upwards of 4.5 million birds passing through Washington on Thursday! "

"Yep.....Landing practice? No sleep for kids, senior citizens, or workers on night shift. Oak Harbor.....the ONLY place in the United States and its territories where the USN can practice night landings without bombarding the citizens.

Blasting us and destroying our peace

Disruptive continuous noise- a.m. and evening.

I would like to sleep, but I guess playing war is more important.

It's loud enough i had to stop recording instructional videos for my class.

The daily onslaught of noise and massive disruption begins.

Far too much to hope that the beautiful peace would last and I could sleep, rest to stay healthy and prepare for work. Anacortes 8:40 pm hideous thundering roaring welling up, fading and returning. Horrid sounds. This is abuse.

Loud, persistent aircraft noise this evening.

Screaming and screeching they go

Jets bouncing at OLF for past half hour. A HALF HOUR of solid HORRIBLE NOISE.

Smashing our evening peace with god awful relentless noise

Trying to have a nice family evening at the state park around the campfire but the loudness of the jets drove us indoors. Very upset at how intrusive they are!

"84.6 dB on Decibel x PRO app

dir: W to E"

Smash the evening quiet

Vibration and rattling in my home at 8:35am, it's criminal what they are doing

S Lopez,1 Mar 2021, Mon: Off and on ROARS from 9:47am - 2:30pm. 65 -70 decibels. The FAA NOW reveals 50 year old data (that they have hidden) revealing that 60% of people living with 65 decibels of average noise are "severely annoyed". YES !!!

Your damn GROWLERS are so loud that you woke me up from a sound sleep!! GET YOUR DAMN JETS OUT OF LOPEZIAN AIRSPACE!!

I can hear the jets flying at Ault field, I live in town in Coupeville !!! Horrible

I had a thought this morning that maybe, just maybe, we'd get another day without jet noise (Monday). Unfortunately not....

It went on and on... THE NOISE!!

Jet number 4 for our complete destruction of peace

Loud flights, grandkids and I were going to go for a walk but now we won't because of the flight noise.

One after another! Can't focus on work.. the jets completely shatter my concentration.

We are absolutely sick to death of this constant noise and disruption of our peace.

Wreck our evening quiet

I'm working.... concentration interrupted by the jets and consequential home vibrations.

Direct flyover eardrum popping

Allowing this sort of noise is indecent. Local ordinances offer protection from noise. Why is noise from growlers allowed? Growler noise destroys the quality of life for terrestrial and marine animals. The noise is hideous and stress inducing.

DREADFUL ROARING. The noise from the growlers entirely overwhelms all other sound. Even indoors, the noise obliterates all other sound. The vibration is **HORRIBLE**.

Exposure to excessive noise is known to cause health problems e.g.: stress, poor concentration, productivity losses, communication difficulties, fatigue & other serious issues i.e. cardiovascular disease, cognitive impairment, tinnitus, hearing loss.

S Lopez, 3 Mar 21, Wed: 8:37am - 11:07am -- continuous noise in the 68 - 72.6 decibel range. This is what we are asked to live with on a week with zero FCLP's scheduled. The house shakes. Our bodies shake. Insane!

Some of the loudest run up noises ever

Absolutely god awful and disrespectful to the very citizens they are sworn to protect and provide peace and security. It's an affront to our founding ideas.

Numerous flights from 8PM to almost 11PM heard over the Skyline neighborhood of Anacortes. Very loud for that late in the evening.

10:27am. Lopez Village, March 4. There is a lot of jet rumbling in the skies in the Village.

12:06pm. Lopez Ferry Landing, March 4. LOUD jet over us.

Had to stop the tv it was so loud. Why so low? This was the worst noise we've had in a while.

Horribly loud disrupting me and my livestock deeply.

S Lopez, 4 Mar 21, Thur: 10:12am - 12:30pm. Steady Roaring 64.6 - 70 decibels. Louder than the 15 - 25 MPH wind. Everything shaking. . . . Plain and simple, it's torture.

stop torturing me"

Starting at 7:55 AM and continuing off & on seemed to be one or more fighters swooping and flying over my home. Quite loud.

Bloody hell!

Knock off the damn noise and disruption!!!

Multiple flyovers this morning. Couldn't hear my audio book through the headphones when I was outside. We purchased this property because, according to the maps at the time, we were not in a flight path. This is ridiculous.

One after another!!

Over and over and over they crush our peaceful lives.

Rocketing into the sky, to hell with our peace and quiet.

Starting FCLPs at OLF. Time to step away from online music class. Way to loud to hear! Such a disruption to life.

"stop routing planes directly over these apartments

S Lopez, 5 Mar, Fri: 9:02 - 10:30am Another day of hideous noise. Sure sounds like FCLP's - which are not scheduled. Another NAVY LIE. The roaring is louder than the 25 - 35 MPH wind. ENOUGH !

Very loud passing from North to South (I think). Short duration.

1.4 hrs of non-stop teeth rattling noise we have endured from these sons of bitches who could care less about the peace we truly value. Coupeville

HEADACHE, EARS BUZZING, CAN'T THINK, CAN'T WORK, CAN'T STOP HATING THE NAVY FOR BEING SO HEARTLESS

New session of FCLPs at OLF starting.

Out walking our dog when 3 growlers in tight formation flew directly overhead at less than 200 ft above us. The sound and vibration made our body quiver. Then they continued with FCLPs at OLF. Painful walk home.

Over Coupeville again

The noise from the jets has been going since 9:03 am... it's now 8:30 pm. This is inhumane and absolutely abuse.

We have been absolutely inundated today from the teeth shattering noise the son's of bitches are making. It's HORRIBLE and a complete destruction of our peace. The peace we are guaranteed in our Constitution's Bill of Rights. Shame on you NAVY!

We're getting hammered today in Coupeville by the jets. It's awful!

What a beautiful day for a walk ... oh no, here come the jets for over an hour of mind numbing noise. NO ESCAPE!

You have NO business flying over here disrupting our peace. It's past people's bedtimes, for god's sake.

Starting a new session of FCLPs at OLF. Flying directly over the house, I could feel the floor shake.

9pm on a SUNDAY and terrifying sounding thunder is shaking the back of my Anacortes home. Navy is terrorizing the landscape. It's abuse.

Completely and totally unacceptable 8:12 pm on a SUNDAY. To blast the peace and quiet of our town, lives and tranquillity. We only get 2days a week now where they don't assault us with noise. What the hell is wrong with my Navy????

extremely loud growler flights over skyline neighborhood of anacortes, from noon to at least 1, multiple passes by growlers overhead.

F*** em

Good god!! Sounded like multiple jets flying low!!

The training flights were unbearably noisy tonight and yesterday. The noise seems loudest with the landing gear down.

What the F***???!!!!!!

Why are we continually being subjected to this horrible noise? Why is this okay!?

Wow... this is becoming more common late into the evening.

LOST? Lopez has no enemies of the state so why does the Navy want to fly directly overhead. HANDS OFF!

Low flying growler aircraft with gear down and extremely loud

Low flying growler aircraft with gear down slowing the jet down producing extremely loud noise, frightening my dog and hurting my ears.

Multiple low flying growler aircraft over a 10 minute period, some with gear down based on noise level and observed speed.

N LOPEZ, 7 Apr 21, Wed, 2pm: Just traveled North to escape that Growlers at the S end of Lopez. The Roar is actually worse here! Horribly loud overflights that kept going on and on and on

"Please stop these extremely loud noises!

"ridiculously loud. I hurt for our visitors that have no idea what is happening—frightening.

S. Lopez, 7 April 21, Wed, 1:30 - 3pm: Loud roaring . Still going on at 3pm. We're going N. to try to get out of the noise

The noise was so great that all of the birds flew quickly away all at once. My cats ran for cover inside the home. My heart rate sped up. The extremely loud noise caused me anxiety.

Argh! Starting FCLPs at OLF!

Bloody hell

does this even make a difference?

F*** off

Is this how it's going to be?! Almost 10 pm and the jets continue to rip over Coupeville... a new norm.

Next session of FCLPs starting at OLF. Husband started d cancer treatments today. Really needs peace, quiet, and rest, not the windows rattling and walls shaking.

This noise has been going on and on and on. You'd think a person could have some peace and quiet in the evening in their well-insulated home. But no.

S Lopez, 8 Mar 21, Mon: The day was shattered by sporadic pulses of ROARING and BLASTING. (9:48 - 10:17am) (12:15pm, 12:32pm) (2pm - 3:20pm) (6:10 - 6:34pm) . 62.6 - 77.7 dec. Do Larsen and Murray understand what we are forced to live with? ?

The growlers are obnoxious tonight. What happened to the mufflers that were being developed???? All flights have been near or over 100 decibels.

Another round of house shaking (!!)

Disrupting work from home. Feel like it's war time.

Effffing sick of this crap.

Got caught out on our morning walk when growlers began FCLPs at OLF. Makes whole body rattle as the pass so low overhead.

House vibrating..... again.

I have lost count of the times they have flown over, not mind you flying at OLF. absolutely an assault on our peace. Go fly over downtown Seattle, Olympia, Bellevue, Mercer Island and see if you get away with it. Disrespectful SOBs!!!

Idiot pilot. Too low too fast. Unnecessary hot dog

Incredibly loud jet noise this past hour.

It sounded like multiple loud jets flying together

loud flights of growlers(or very similar plane) overhead

Low and loud over town of Coupeville again!!!! Inconsiderate and deliberate disrespectful behavior Navy

My home is vibrating, that is not an exaggeration whatsoever. This is totally unacceptable and an unmitigated assault on the citizens of Whidbey

My house is vibrating!!... there are TWO flying right next to each other. DOUBLE THE NOISE!!

New session of FCLPs at OLF.

Nothing like the sound of war early in the morning.

Smashing our peace and again

Such total bulls***. 9 Tim's today already beginning at 7:55am. Not OLF OPS, rather transiting from Ault Field to the west , presumably to wreak havoc on the serene Olympic National Park.

Way too loud. Disrupting WFH meeting.

What good is a schedule when you alter it at will? Fridays used to be sacred for the tourists. Crowded pattern 14 creates constant, intolerable noise, even in the house. Also, had to quit outdoor activities on sunny day last week with pattern 32.

You guys absolutely suck. The worst behavior towards your fellow citizens!!!!

4/09 South Lopez. Very loud jet roaring in the skies. Rumbling and roaring. Annoying and too loud. On and On and On.

Flights over my home are extremely loud - over 90 decibels inside the home with windows closed. Sometimes the house shakes. It is difficult to do my work while they are flying.

S Lopez, 9 Mar 21, Tue: Grateful for a fairly light noise day when I can work in my garden without ear protection. Roaring at: (8:02, 9:07, 9:23am) (12noon) (6:03, 6:35pm). We are forced to live on NAVY time.

Was in basement, in a enclosed space. The aircraft swooped low over the property and house startling me in the basement! With so much open water relatively nearby, why are these maneuvers made?

8:42 pm!!!!

Interfering with work from home. Difficult to hear and concentrate.

Multiple passes, at least once with two jets. Double the NOISE!!

Really??

Sounds like the testing of the space shuttle engines. This needs to be moved to a location away from the general population. This causes extreme stress in everyday life.

11:12am. SATURDAY, 4/10. LOUD LOUD LOUD growler flying overhead. Almost sounds like two. I am inside working so did not rush outside to see. Noise permeated the house. Characteristic long long roaring. Distracted me.

Continuous blasts

S Lopez, 10 Mar 21, Wed: 7:22 pm - 70.8 decibels. What a RELIEF to have almost a whole day of relative quiet. My blood pressure is lower.

Wonderful day to be outside, except for the extremely loud sounds of war. This is too close to largely populated areas.

S Lopez, 11 Mar 21, Thur: Three huge takeoff ROARS - 9:42 - 10:30am 62.8 - 78.6 decibels. We are 12 miles from NASWI and we hear EVERYTHING that comes and goes.

Could we please have some peaceful evenings? This is extremely annoying.

F*** off. Gonna keep telling you to F*** off until you F*** off.

I shouldn't have to wear hearing protection in a park.

OMG SHUT THE F*** UP!

Stop the madness! You're destroying our peace.

This is the most evil, violent country in the world.

Too loud to even talk ehile outside walking. Not totally sure time but aroind 8 pm to 9 ish

Wow... all evening and then a loud flyover at 10pm. Thanks Navy. Such good neighbors.

1:04pm S Lopez 4/12. Jets noise roaring in the skies. Very Loud.

1:06pm 4/12. South Lopez. The jet noise continues to rumble and roar in the skies. I have to be outside and it is annoying and irritating.

1:38pm. S Lopez 4/12. Jets noise roaring in the skies. Very Loud.

10:11am, April 12. Loud jet noise, deep roaring. S. Lopez.

10:46am. S Lopez 4/12. Jets noise roaring in the skies. Very Loud.

11:02am. S Lopez 4/12. Jets noise roaring in the skies. Very Loud, with a long long roar..

11:04am S Lopez 4/12. Jet seems like it is coming around again, or is this a new one. LOUD and screaming. Sounds and feels like the air above our home is a jet runway.

3:00pm, April 12. South Lopez. It is a day of jet noise. There is always a war going on. The Navy seems to feel it is necessary to bombard us with noise. Expensive jets that waste fuel and fly over beautiful country that they are destroying..

3:03pm, April 12. S. Lopez. The jet noise is roaring again. Disgusted.

3:10pm. S Lopez 4/12. Skies are roaring with jet noise. Angry and annoyed.

3:48pm April 12. LOUD LOUD jet noise. Roaring that is deep, irritating and Long. South Lopez.

4:53pm. April 12. S. Lopez. Right now, Jet noise ripping the sky apart, blotting out TV sound. Jet noise inside our home is unacceptable. Tired of Legislators ignoring this. Tired of Navy lies.

8:25pm. 4/12. S Lopez. A hard day of contract work & lawn work, cleaned up the kitchen & needed an evening walk and ROAR! there is DEAFENING jet roaring above me. Seems to head south, then turns, I think, for more deafening ROARING. Hands over ears!

8:33pm. April 12. S Lopez. Are we being bombed?? A tremendous jet roaring noise fills the house. It has been a noisy evening.

About 2:15 pm or so. April 12. South Lopez. There is jet noise in the air that is driving out any other sounds. Why do we advertise for visitors to enjoy the San Juan Islands? It is HELL here. I NEVER invite anyone here.

"Additional information, not sure where to report this nor do I have specific dates.

Contractor stated that several times this winter the distinct smell of jet fuel was present as Growlers dumped fuel over the Straits. "

Loud jet overhead.5:40pm April 12.

S Lopez, 12 Apr 21, 11- 11:05: 88 decibels crushing noise. Absolutely hideous.

S Lopez, 12 Apr 21, 5:30pm: 86.4 decibels. Overflights and more overflights . . . and more. Impossible to live like this.

S Lopez, 12 Mar 21, Fri: 4 taKeoff ROARS, 10:02, 10:07, 10:1, 10:27am. Decibel readings outside were 72.8 - 88.6, well into the zone for Severe Annoyance and adverse health affects.

There is jet noise everywhere in the skies. We are in a war zone. South Lopez.

Trying to go to sleep!!

82:8 dB

"95 dB on Decibel Pro app

Odd how every construction company in the San Juans honors and respects local noise ordinances, but not the Navy pilots sworn to serve and protect.??"

"DESTROYING LIFE IN A RESIDENTIAL AREA ... SHAME ON YOU NAVY

YOU ARE KILLING ME"

Disturbing amount of noise inside a well insulated house. Good think I didn't want to be outside today.

F-ing F-you Navy. You suck. Absolutely smashing our beloved peace and quiet

F*** you

In Coupeville, this really is criminal behavior on the navy's part

Noise is extremely loud and damaging even when inside our house. It is impairing our daughters sleep and scaring her. We are unable to continue

normal living during the time the jets are flying. This is louder than normal here.

"So much noise today, yesterday, and the day before. Give us a break, please.

Thanks for continuing to terrorize us Navy

The jet noise just keeps going on and on and on.

They stopped water boarding the enemy because it was un-American but they fly ear shattering Growlers over Americans in their own homes??????

They're starting earlier in the morning and flying later into the evening. We've had over 12 hours of noise today. It's madness.

this like the fourth time and it's not even ten. i need to be able to sleep.

Very loud over North Beach section of Port Townsend

Very stressful for me as I deal with auto immune disease which causes severe headaches, and the sound makes recovery difficult as I cannot get away from the loud noises of the jets. Please stop. Fly elsewhere. Not over my home!

10:06am. MORE jet roaring above us. Lopez.

11:17am. Extended roar of a jet over us. In the trees so I can't see it. VERY LOUD. South Lopez.

3:01. MORE JET ROARING. SOUTH LOPEZ.

3:13PM MORE JET ROARING. LIKE THE SKY IS SPLITTING APART. SOUTH LOPEZ.

3:34PM AGAIN. MORE JET ROARING. LIKE A LOUD LOUD TRAIN LUMBERING ACROSS THE SKY.

8:10pm April 13. S Lopez. Deep, throbbing jet noise over us. Prolonged roaring. It just goes on and on and on. Time to relax after a workday and we get JET NOISE.

Loudest noise ever!

8:13pm. April 13. S Lopez. What is going on? We are getting more jet noise again. Is this a jet parade? Are Navy pilots out for an evening tour? Circling around? GO AWAY. YOU ARE A NUISANCE!

9:47am. Burst of jet noise coming from Whidbey. A morning of jet noise in the sky instead of bird song. I thought these were peaceful islands. No one in their right mind would ever call them that. South Lopez.

April 13 afternoon. I am so tired of thundering jet noise from Navy. It is a thousand times more offensive than average aircraft. Deep bone-shaking noise that goes on and on and on. Was out for a walk about 2:30 or so. Quiet, then WHAM and ROAR.

Noise tonight is unceasing. Really bad.

Stop this now

2:55pm or so, April 14. Loud jet noise. Long roar. Not a commercial airline. S. Lopez.

9am, 4/14. Jet roaring noise, to the east of us. LOUD. S Lopez.

Terrified the children playing on the beach.

9:59 pm , are there no rules that they must follow?? What arrogant SOBs

"98dB on Decibel X Pro app

dir. SW to NE

2-300 ' over house

The enemy within"

Bloody hell!!!!

Completely ridiculous!!

F*** you

In Coupeville, beginning another agonizing day of peace wrecking racket and heartbreaking noise from the non-freedom Navy

In Coupeville, over and over they fly the east west corridor smashing our peace

Next session of FCLPs at OLF. Beautiful sunny day out and really want to be outside but way too loud.

Quiet evening until YOU came along! Go away now.

Several hours now... flying at OLF, over Coupeville. Extremely loud at times, noisy wooshing and absolutely disturbing.

Starting FCLPs at OLF before early afternoon...Argh!

This guy flew right over the Eagle Cove neighborhood then proceeded right up the coast of San Juan Island. Elevation probably 5000-10,000ft. Extremely loud. There is no excuse for this. Obviously out for a joy ride.

Another training session right over our home, measured over 90 decibels inside home with windows closed (110+ outside). Very disruptive to life (and health!), especially when working from home.

Extremely loud, ridiculously disrespectful of the citizenry. The Navy simply could care less about the impact they are having on the very citizens they are sworn to protect. It's appalling.

FCLPs starting at OLF.

Ironic that they decided to fly around our property on the day we are attending the Navy Aircraft Noise: Implications for Salish Sea/Olympic Region conference call this afternoon.

Noise level inside home office while working with client was 93db with the windows closed. Used Decibel X app to measure.

Over and Over again we get slammed by the inconsiderate and disrespectful Navy.

Sounded like the jet was taking off right over our home. Ridiculous!

They fly directly over my home at 300 feet altitude. The EA18-G has a noise magnitude that is louder than a human can withstand, this is environmental terrorism.

Too much! Argghjhshshshshsh

Trying to go on a hike at Barnum Point Park. Constant loud flights.

S Lopez, 16 Mar, Tue: 10am - 3pm HUGE roars all day in the 70 - 80 decibel range outside. It's hard to be sick with all the hideous noise.

5 growler jets approximately 2 minutes apart.

"93.5 db inside home office with all windows closed. Growlers barely clear fir trees on my property.

My daughter is trying to complete her end-of-term University of Washington college finals and projects within our home; noise too disruptive."

Another round of low, loooooong roar from the jets. Disturbing, distracting me from work activities and focus. When will we be able to live in our home in peace? Walk our neighborhood in peace? Work in peace.... sleep in peace, gather in peace??

Bloody hell X 4

F*** em

Incessant noise, whooshing sounds, loud (!!) coming from OLF most of the day today. Grating on nerves... constant!!

Pair of jets , again headed west climbing, deafening sound that we must put fingers in our ears to prevent pain. Hey Navy, stop terrorizing the citizens you have taken an oath to protect!!!!!!

Two by two, east bound, destroyed our quiet again!!!!!!

Two jets at a higher altitude flying slow for an extra long noise event.

Couldn't hear the tv. Awful.

Direct flyover

S Lopez, 17 Mar 21, Wed: Periodic and steady noise from 9am - 10:21pm. We were immersed in ROARING for 13 hours with only a few breaks. Noise like this is used to drive people insane in certain countries. It's working . . .

F*** em

F*** em

F*** em

F*** the jets

Flying right overhead- like the past 3 days. Inside the decibels are reading around 86+. :-(

F*** the jets

F*** these jets

Just solid jet after burners for 1 minute, F*** your jets. F*** your "sound of freedom"

Out of no where - a very loud WHOOSH noise - then again. Then gone. Then minutes later in the distance, more whooshing. This pattern, over and over again. Day after day. My nerves are shot. I can't go anywhere to escape. I work from home.

The daily peace smashing begins.

Very loud Growler flight, been a number of flights this morning but some are much louder than others.

Very loud growler flight, one of many today

Excruciating noise, this morning and most everyday.

Gut rattling growler engine noise

"House rattling

Why is the navy inflicting this in our civilian population?

Get a different quieter plane than the growler"

Low level flying growler aircraft disturbing my life

Many bouts of engine noise - ongoing flyovers

Rattling everything in the house

Rattling objects on our table

S Lopez, 18 Mar 21, Thur: Another day in the "Peaceful, relaxing, San Juan Islands". Today we only had 6.5 hours of nearly constant noise - 9am - 3:30pm. Hard to work online when everything is shaking and there is no escape.

"Thunderclap screaming flyover accompanied by terrible thundering growlers in the distance

So much noise one can't possibly document it all, which is what the navy is counting on"

Completely unacceptable

F*** the jets, literally fly all day. F*** em

Loud roaring as they leave Ault Field

S Lopez, 19 Apr 21, Mon: 4:55 -4:57pm - overflight of 2 growlers - 86.7 decibels - insane.

Another blasting of our peace, over and over and over they fly the east west corridor as if this is some kind of unlimited freeway in the sky. Where did the respect for the civilian population by the military go?

Extremely loud, over town in Coupeville again

Over town of Coupeville flight from west to east, intensely loud and completely unacceptable for this time of night. F-you Navy !!!

S Lopez, 20 Apr 21, 10am: 95 decibels !!! Impossible to have a conversation. Impossible to hear anything but the SCREAMING ROAR. This is our home . . . Again: 8:30 - 9:15pm 85 decibels : this is torture.

F*** em

Good morning Coupeville - to the horrible noise of growlers.

In town in oak harbor, jet climbing out going west obliterated our quiet

Location not working??

SUNDAY afternoon had to seek shelter for a moment while trying to plant lavender in my yard in Anacortes as 2 growlers flew overhead together beneath the low clouds. Sounds echoed for nearly 10 minutes before the peace returned finally.

This is becoming a regular late night event!!

10:12pm. Getting ready for bed. Discouraged because the jet roaring is so loud and so disturbing. Sounds like war.

11:07am, April 21. SCREAMING JET over South Lopez. First the shrieking scream, then the roar, the long roar. The continued roar. Startled me. Unacceptable. The navy does not need to fly over Lopez.

8:15pm. April 21. S. Lopez. Huge Booming jet noise from Whidbey. Like an explosion.

8:17pm, 4/21. South Lopez. More booming loud jet noise from Whidbey. Very loud and annoying.

8:18pm. April 21. S. Lopez. It sounds like we are enduring consistent jet activity from NASWI. Result: almost continuous booming roars. As if one jet after another is taking off. Loud and disruptive.

8:20pm S Lopez, April 21. It appears my mistake is acting like a normal person and opening up the deck doors for fresh air on a lovely night...because now all I hear is explosive bombing noise from jet action at NASWI. S. Lopez.

8:23pm. April 21. S, Lopez. The war zone jet noise continues. It is disruptive. It is an awful way to live, to feel like the bombing run is on its way to us. BOOM! ROAR!!!! Legislators who turn their eyes away from this issue are not serving us.

8:25pm. April 21. S. Lopez. I am going to have to close the deck doors in order to get any peace. The jet roaring and booming has been about a minute apart, LOUD, DISRUPTIVE. This is no way to live.

S Lopez, 21 Apr 21, Wed: 8:30 -11pm , Too loud to sleep even with Bose noise canceling headphones. When people are subjected to this kind of torture - in their homes - it is no surprise that craziness and bad action is the result.

S Lopez, 31 Mar 21, Wed: 8:26 am - 11 am. Seven Growler takeoffs from Ault which resulted in 7+ shattering Blasts in the 72 - 78 decibel range. 2.5 hours of jarring explosions coming at us from 12 miles away. Home as a peaceful refuge is a joke.

FCLPs starting at OLF. Very loud. Unable to participate in online meeting.

House vibrating!!

Multiple launches over Coupeville with loong low rumble going West.

Over and over the town of Coupeville, completely smashing our peace. You suck Navy, and are an utter embarrassment. Shame on you

Starting FCLPs at OLF. Walls shake and windows rattle. Miserable.

Utterly ridiculous at this hour!

Words cannot convey how sick i am of reporting the constant noise and the noise itself. This is crazy. Why can't anyone tell us if it's worth the trouble. Nothing changes. This has been going on for years.

10:09am South Lopez. Big jet roar. Doors and windows are closed, but the noise comes right into my home.

10:15pm is TOO LATE for jet noise. Loud roaring. GO AWAY. I need to sleep.

10:18pm. Jet noise still roaring from Whidbey. Navy does not feel that people need their sleep after a hard day working. BAD NEIGHBOR.

10:59am. I am on a zoom call and distracted by a very very very loud loud loud jet roar. The Navy has no right to invade my home.

11:30am, April 22. Mud Bay, Lopez. Suddenly, jet screaming above us. I jumped in my seat, disrupting a Zoom call. Heading toward north. The scream turns to a deep vibrating roar. The roaring goes on and on, as if afterburners are on or something.

7:30pm April 22. Mud Bay, Lopez. EXCESSIVE JET NOISE and roaring. Trying to have a dinner conversation, and there is JET ROARING.

7:45pm. 4/22. S Lopez. LOUD LOUD LOUD explosive jet roaring from Whidbey.

"S Lopez, 22 Apr21, Thur: 9:45 - 10:09am - Constant Growler noise in the 65 decibel range

Again, from 7-10:15pm, constant Growler Roaring. What are Larsen and Murray doing to mitigate this atrocity? Apparently nothing."

Unpleasant to be outside this evening for my evening walk. South Lopez. The jet roaring is like a headache. There is no good time for the jet noise abuse that the Navy aims at us, particularly the evening.

100.6 db using Decibel X app inside house near south-facing back door.

"87.1 dB on Decibel x Pro app

WHY??? peaceful dinner ruined!"

A bomb repeatedly going off in the sky they are

Absolutely incredulous the Navy has become. They are essentially a terror organization now.

Extremely loud 9:10am flyover.

FU Navy!!! You suck and are a terrible neighbor

Good GOD! Can they get any closer???!!!

I have come to dislike my My Navy.

Insane loud and absolutely unacceptable this time of the evening

SO annoying!! Loud and intrusive. So disruptive to work, in zoom and phone meetings!!

Two over Coupeville one after another ... loud, announcing... so frustrating.

1:01pm. April 23. The jet noise is constant. It sounds as if the jets are just circling over us, sending us waves and waves and waves of jet noise, echoing off the water and the hills. This is disruptive. These jets have no business here.

1:10pm. April 23. The jet noise goes on. Do legislators think this is acceptable? Are they really saying, "Sorry, you are just collateral damage." ???That is a fine way to regard the people you are supposed to protect. No integrity. None.

10:54am, April 23. S Lopez. Have we declared war? Tremendous jet noise above us. Jet roaring. Loud, and drowns out everything else.

11:30am. S Lopez. Apr 23. JET NOISE is infesting the air. There is deep, rumbling loud jet noise from Whidbey. CONSTANT.

12:21 4/23 S. Lopez. LOUD LOUD LOUD Jet roaring. Skies filled with this warring combative noise.

12:23pm. South Lopez. All I hear is jet noise soaring and roaring in the skies. The noise is everywhere. The Navy is an environmental pest. PEST. No respect, none at all.

12:47pm/ April 23. A wreck of a day. Nothing but jet noise from NASWI.

12:50pm. 4/23. S Lopez. Now, even MORE jet noise. The jet noise rolls around the skies, penetrating our home. TOO LOUD. GET THESE WAR JETS AWAY FROM US.

12:52pm. 4/23. Here comes another wave of LOUD JET ROARING. S. Lopez. Fortunately, I have to go to town. This is not right, that in leaving my home, I get some peace.

12:55pm. The skies are thundering. Jet noise everywhere. This is abuse. S. Lopez. April 23.

12:58pm 4/23. S Lopez. BIG BOOMING ROARING JET NOISE OVERHEAD.

Loud jet interfered with business call.

S Lopez, 23 Apr 21, Fri: 9:05 & 9:35am: The roaring begins again.

A complete onslaught today has been. Not even any evening peace to be had from us lowly citizens of the US.

A steady stream of peace smashing bulls*** from the Navy.

extremely loud flights overhead

F*** you !!!!

House is vibrating, 8:30 in the morning.

You're totally disrupting my sleep. STOP.

Low flying growler aircraft ruins my moment, again.

S Lopez, 24 Mar 21, Wed: 8-8:30am Low Roars, (8:54am - 70 dec.) (9:02am 70 dec), (9:37am - 82.8 dec) outside measurements.

Too loud inside our home

"89.5 dB per Decibel x Pro

E to W"

Trying to enjoy a beautiful walk in Washington park- good for body and soul, but at least 20 minutes of screaming,, painfully loud navy F-18 warplanes destroying peace and endangering hearing on a SUNDAY morning- 9am

Two jets, low, double the noise, right over Coupeville

very loud flights overhead, sounds like Growlers but clouds overhead make it tough to spot

Over Barlow Bay, Lopez Island, Washington

Right over our home

S Lopez, 25 Mar 21, Thur: 11:15am - 11:17am - only 2 min of roaring , but it was an excruciating 85.6 - 88.9 decibels outside. At 1:30 pm the Roar was only 75 dec. At 2:47pm a Growler flew overhead with a SKY RIPPING ROAR/SCREAM - 90+ DECIBELS

Still too loud inside our home

Too loud for dog and humans in our home

Bloody hell x 3

"extremely loud growler flight, loud enough to drown out work calls, and rattle things inside the house

Over town in Coupeville, beginning the day of peace and tranquillity smashing by the disrespectful and arrogant Navy

Stuck inside instead of working I. The yard or taking a walk in parks because of the jet noise

Three beasts

Will this reporting ever make a difference? They're back, destroying the peace of our home and central Whidbey.

"Youre a force of harm to your own neighbors

Shame"

12:30pm. LOUD LOUD LOUD jet overhead. Prolonged noise. Lopez

Also single growler at 12:01 today flying low, roughly se to nw. Excruciating, unbearable decibel level. I know it doesn't matter to them but they are killing us with this level of noise.

"can not hear anything in the house

was talking with my partner and the jet is so loud we had to pause our discussion until the jet passed"

Jet roaring directly overhead. Painful to inner ear. Horrible noise and horrible sensation. Noise tears the sky apart, rips through the environment, overwhelms all other sound.

Over Sperry Peninsula, Lopez Island, Washington

"S Lopez, 26 Apr 21, Mon: 12:30 PM - 4 Growlers overhead -12 miles from Ault field - 98 decibels !!!

WHY? Why is it okay to terrorize us in our homes? There are other places for these jets to train - away from civilians and homes."

"The growlers have been going all morning and it is stressing me out so very disturbing"

Was on the phone and couldn't hear the other person. What's going on? Why so many jets low over our house?

Long drawn out noise event so very tired of the Navy's noise.

Over town in Coupeville, like a bad alarm clock they smash the peace of our town. For a full 4.7min the roaring and deafening noise impacts us with no escaping.

11:49am, April 27. Growler on its way to war, that is, assuring that people below are properly disturbed by the low flying growler above us now. Mud Bay, flying NORTH. A huge scream announces the nearing, now the loud roar, now the long roar. ABUSE

9:13am. 4/27 The day starts with rumbling and roaring jet noise. Constant thunder. I am guessing jets taking off at NASWI. The sound comes right into our home. That is ABUSE. That is the result of Navy LIES.

9:24am. April 27. S Lopez, site of the Navy's war zone. LOUD LOUD LOUD RUMBLING JET ROAR. LONG Roaring.

S Lopez, 27 Apr 21, Tue: 9:05 - 9:22pm. Is this the beginning of another hellish night of Growler Roaring?

F*** em

It's a beautiful spring day, navy. Why you gonna be a dick?

Ridiculously loud and completely disrespectful of our peace. F-YOU Navy

10:02pm. S Lopez. This used to be a quiet and peaceful place, and it is advertised as such. HAH! The Navy runs roughshod over us. BULLIES. Jet noise at night. How to sleep? A constant problem. Go to Lopez and ruin your health.

10:04pm South Lopez. Jet noise ruins the night.

10:41am. Off Hunter Bay. LOUD Jet roaring in the skies. Huge booming.

10:55am April 28. Booming and persistent jet roaring. Disturbing. Thunder? No: jets. Hunter Bay area.

4:29pm. April 28. Prolonged roaring of Navy jet over S Lopez. Long roar. Still going. Still going. The jets are NOT commercial jets which have only a brief noise. These Navy jets have deep loud disturbing roars. Threatening. Still roaring.

6:32pm. S Lopez. LOUD LOUD LOUD roar of Navy jet. It is NOT OK for the NAVY to have jets penetrate our home with jet noise.

9:42pm. Time to sleep. Windows open for fresh air and all we hear is JET NOISE. Jet noise soaring in the air, and into our home. Why does the Navy think it is OK to run loud jets at night? S. Lopez.

9:48pm. S, Lopez. JET ROARING CONTINUES. NO PEACE AT NIGHT!!!!

9:50pm. S Lopez. ANOTHER JET NOISE BLAST. IT IS LATE!!!!

S Lopez, 28 Apr 21, Wed: 9:02, 9:10, 9:15pm. Growlers roaring 65 - 72 decibels.

10:41pm? You make it nearly impossible to not call you what you are to be so unapologetically harmful to your fellow americans.

3 jets in formation flying north were extremely loud

No naps for the weary in Coupeville. We must have jets flying in the sky protecting us from absolutely NOTHING.

Shame on you

9:57pm. S Lopez. JET NOISE BLASTS CONTINUE.

Early evening about 6 or 6:30pm. Sitting outside enjoying a quiet conversation and WHOOOSH, ROAR. The Navy sets thunder in the skies with jet noise. Came inside. Rats.

Shame on all three of you

Show off at my pain. Shame on you.

Start of FCLPs at OLF. Stressful day. Really need peace, quiet, and a cup of tea not the roar and rattle of growlers tonight!

Very loud growler flight

1:21pm. April 30. Cousins Rd. Lopez. TWO GROWLERS SHRIEKING OVERHEAD, SEEM TO BE HEADING WEST NORTHWEST. WHAT ARE THEY DOING FLYING OVER THE MIDDLE OF LOPEZ? THE NOISE IS DEAFENING! STILL ROARING AFTER I CANNOT SEE THEM.

10:35am, 4/30. Screaming and roaring jet over S. Lopez. Blotted out TV show.

11:01. LOUD LOUD LOUD jet overhead.

11:29am. South Lopez. This is a pretty sorry thing when the jet roaring noise overwhelms the indoors when the dishwasher and clothes dryer and TV are going on at the same time. GO AWAY GROWLERS. YOU ARE A MENACE.

Several low flights over south Lopez

F*** em

F*** em

Actually hurt ears. Dry real pain. Direct flyovers

S Lopez, 31 Mar 21, Wed: 8:26 am - 11 am. Seven Growler takeoffs from Ault which resulted in 7+ shattering Blasts in the 72 - 78 decibel range. 2.5 hours of jarring explosions coming at us from 12 miles away. Home as a peaceful refuge is a joke.

Very loud flights through the evening. I was on the phone with the bank for over an hour and several times I had to stop and wait until the flights had subsided so I could continue my conversation.

24 / 7 noise no sleep sounds like generator outside my window all night. Please give me a break can't you fly further out .

3rd over the last 45 minutes

Low rumble really doesn't describe it. Roar.

several loud flights interrupting business phone calls and work

Rumbling off and on during late morning/ afternoon.

Repeating every 20-30 minutes all morning

10:13am. Lopez Village, March 4. More loud rumbling of jet noise in the skies.

10:17am. Lopez Village, March 4. Loud jet rumbling in the skies.

Hi, I had also submitted a noise report prior to this as well that included the wrong time. It was reported as 4:xx AM and should have been PM. Thank you.

10:10am. Lopez Village, March 4. Loud rumbling in the skies, as if their is a squad of jets roaring around.

Called Navy report line. Have been flying for hours. After calling the Navy within 30 min flights over house got worse. Sleeping in unfinished basement in a tent to try and get away from the noise.

I find that low noise that just went on and on and on tonight to be very disturbing. It was not possible to concentrate with that going on.

Jet noise penetrating the home. Continuous flights. Very stressful.

Flights started at high altitude rumbling, but in a distance. As morning progressed the flights seemed to become lower and lower to the point that the sound and vibration was very startling from inside enclosed building with no windows.

IT IS 6:30AM!!!!!!!!!!!!!! A growler flew over, I can't believe it at 6:30 am. I even had earplugs in.

I beautiful day. Trying to enjoy the parks and outside. Jets keep flying with loud rumbling. Feels like it just goes on and on.

Low rumble of what sounds like touchdowns off and on all morning - from Coupeville.

lasted at least 2 minutes

Please make it stop

A low rumble doesn't describe what the Growlers sound like in Port Townsend - it's a roar. I live in a neighborhood that is otherwise mostly quiet but the Growler noise is inescapable.

I have no idea what the issue is with noise. I am so glad the Navy is here and my neighbor! Thank you to the young men and women who work hard and keep us safe. No complaints here!! God bless you all!!

Severe loud rumble the last two nights late into the evening. The rumble travels through the house. Flights light into the night. Anxiety is now so high due to the constant noise.

I'm tired of you guys doing Prowler flights at night!!

Off and on flights through the day. Very loud at 4:17pm. Nervous to report to NAVY report line because it seems to increase about 20 min after call is made every time.

We have lived on Whidbey Island since 1971. Until the Growlers arrived at NAS Whidbey, we rarely heard any jet noise. Now we hear it every time

they fly. We live on the SOUTH end of Whidbey and shouldn't have to hear it.

I do not mind the Growlers at all! Keep up the good work :-)

Low rumbling in the background. Now I am not working outside because of it.

Noisy during the afternoon from multiple growlers flying landing practice drills above Whidbey.

They are everywhere. You just can't get away.

VERY LOUD repeated flights. Defiantly can not enjoy outside.

Low flying military jet flying west. The low rumble lasted at least 5 minutes from 9:50-9:55 a.m.

multiple takeoffs

I can hear this inside my closed garage with a shopvac running !

The Growlers have been incessant for the past 24 hours. How can we live in a free country when it sounds like we are about to be attacked by who is supposed to be guarding that freedom?

Loud engine runup through the evening hours. Seems like then could muffle that on the ground.

lots of noise from NW of my house louder than the TV. What a pain to have to hear this over and over again disturbing my life.

They have been off and on but stated no scheduled flights

Very loud rumble and goes through entire house. No flights scheduled but they continue flying all day now late into night.

What are they doing. It said no flights and it has been all day

Hearing through the house. The Ouse just penetrates through anything.

if i play my stereo too loud after 10 pm my neighbor has a right to call the police. apparently the navy is above the law?

Rumbling throughout the house. Long 14 hr day and now I can't relax. Very stressful.

Trying to have an online meeting. Flight going over

P3 zooming....

the sound of these jets is so disruptive, like it tears apart my human qualities and shreds them

Stopping phone calls, conversations and meetings.

Getting coffee and jets going already

Hers off and on all morning. Windows closed and jet noise can be heard over laundry and dishwasher.

Stopped calling Navy hot line. Feels like the target you when you do that so only reporting here.

Repeated flights through afternoon and evening

Have been flying all day. Now low rumble but constant.

Particularly disturbing to my ears.

Just wanted to say hello to you few fokes trying to control this island. Just move the hell off.

The map portion of this site is not opening. I am unable to pin my location.

Thank you for keeping us safe here in the San Juan's.

Afternoon and evening noise. really disruptive

South Beach, SJI between 2 - 3 pm on Monday, 3/1/21. Was also stopped by tourists asking where the loud noises were coming from.

Runups at Ault? I don't know but it's SO disturbing!

after several days of restored quiet, they are rumbling about every 8 minutes this morning. Just terrible.

Again. Third time in an hour.

Another morning with the usual noise bombardment from our not-so-friendly neighbor from the south.

Jesus. All morning, just one after another.

Powerful vibration and deafening noise. Extremely unpleasant.

So I guess it's one of those days where you can just assume it's all day long, every ten minutes or so, but I can't report every incident, because I have to do this thing called work, that normal people do instead of playing with war toys all day.

"Very disturbing, the vibrations are interfering with my ability to navigate and find food.

Yours truly, L Pod"

What an absolutely top-notch use of tax dollars, especially right now. God knows there's nowhere else in the fiscal budget that needs money.

What is that, the seventh time this morning?

11:35am. Lopez Ferry Landing, March 4. Loud rumbling, vibrating noise from NASWI. All the way up here!!!!

11:57am. Lopez Ferry Landing, March 4. More loud rumbling, vibrating noise from NASWI.

12:03pm. Lopez Ferry Landing, March 4. Loud rumbling, vibrating noise from NASWI.

Many flights much of the afternoon - loud and disturbing. It was a great day until the growlers took to the air.

Watching NCAA championship game and had to turn up the volume because couldn't hear it. That is not right.

Another day in hell

Loud and obnoxious flights today ruining an otherwise beautiful sunny day. They are ruining this entire area for those the live here.

Numerous flights directly over my house. This seems to be a fairly new favorite. Wondering if it is pay back for calling Navy report line.

Sunday night, multiple aircraft overhead and low and very loud.

Very annoying how this rumbling comes out of no where. Has increased significantly over last 21 years. Stop it!

Huge amount of noise at my house today disrupting to normal living. They need to move this to lower populated area.

P3

Roaring jets today, now into the evening. HORRIBLE NOISE. Exposure to excessive noise causes stress, poor concentration, productivity losses, communication difficulties, fatigue, cardiovascular disease, cognitive impairment, tinnitus, hearing loss

Super loud and disturbing

The rumbling can be felt in the bones. Yesterday it was so loud and frequent, I developed a headache and left the area.

Multiple loud overflights evening.

Roar and rumble from the direction of Oak Harbor.

Peaceful evening disrupted by rumbling and roar over Port Townsend. Keeping all the windows and doors closed to try to mitigate the noise. Normally, I would be able to hear the frogs but cannot over the aircraft noise.

This evening the jets have been unceasing and irritating in the Fort Worden area.

Made sitting outside in my yard unpleasant. Turned on radio to block the sound inside my house. I am a vet with ptsd. This affects my ability to relax. The sound causes anxiety.

shut. the. F***. up.

suck it, fascists

We are on the farthest southern tip of Marrowstone Island and this is the third time today that they have been flying that we have been disrupted. Very annoying.

trying to F***ing eat dinner with my family

F*** you

just goes on and on and on

Shook my house from a distance.

Two jets flying over my house making a lot of noise sending everyone to the windows to see if they were going to hit us.

lots of jet noise the last few days

very noisy and disruptive flights today. Multiple times

Roaring jets, the noise shatters the environment, causes a deed feeling of unease and dread. Noise affects all living creatures, including marine life. It is shameful to allow this dreadful noise to ruin the acoustic environment.

Loud aircrafts for hours now into the late night

Multiple Growlers tearing up the sky and making hell of a racket. Really is making life difficult to live.

Early morning was uninterrupted by jet noise. Roaring has now resumed overwhelming all other sounds. Horrible noise and vibration destroys the acoustic environment, creates deep feeling of dread and unease. Painful to inner ear and whole being.

Jets are still at it

Rumbling in our house and loud outside

Still at it

The rumble and vibrations have been ongoing since 11:45 am. It is now 11:56 am.

Could feel the rumbling in the house

Noise pollution from 10 miles away. FCLP should be banned in the Puget Sound.

Very loud disrupting conversations with customers at our business.

"Lots of noise requiring me to wear ear plugs in my home. really too much!

Reporting harmful acoustic energy emissions.

Very late this evening

11:42am or so. April 22. HUGE rumbling roar from jet activity at Whidbey. S Lopez.

four in formation and very low

Last night at 1012 PM, now 1012 AM. Navy is apparently not going to leave us alone.

Noisy on and off since mid day into evening.

11:41am S Lopez. Apr 23. LOUD Rumbling and jarring vibrations from Whidbey. The Navy abuses us.

Engine noise from ault

Loud ongoing rumble---going on for days. It feels like I am under a siege.

Another rumbling noisy day— this is obnoxious!!!

Multiple low flying Growler aircraft disturbing my work

"Loud and disruptive. They need to find an isolated place to fly these noisy jets vs over homes.

More noise than any home owner should have to tolerate.

P3

will complain every time.

"I was working in my garden and can not remember the exact time of the noise but it was extremely loud and went on for some time.

In fact all weekend this drove me crazy"

EMF's are harming us ... please practice away from residential areas!

"Multiple over flights today ruining the peace

Multiple flights making hell of a lot of noise inside my house.

Growlers flying

"My light fixtures are vibrating due to Growler jets!

Too loud to sleep

Getting louder as the morning progresses.

Really loud over flight of my house and then more followed. Give me a break!!

Directionless rumble from the sky, how calming at the end of a long, hard day. So stoked you're all out there keeping America safe. Good job.

It's ten at night, for god's sake.

It's ten at night, for god's sake.

The loud rumbling of what sounded like jet aircraft extended from about 9 PM to 10:15 PM.

Lovely quiet spring morning on the farm until the noise started up.

Obnoxious constant roar. I might as well live next to I - 5 in Seattle.

At least two jets now have flown so low they a shaking my house and I am on Camano between two state parks. It feels like we are being attacked by our own country.

Loud and disruptive

most of these reports are from inside a building. Outside is MUCH louder. Even inside sometimes requires hearing protection. Inside a vehicle has other effects..

Severe jet noise. We tried being outside and had to come back in, sunny beautiful day. Several times felt vibrations.

Although distant roaring, still painful to inner ear, altogether unpleasant. Overwhelms all other sounds, inside & outside. NOT healthy. We depend on our acoustic environment for meaningful sounds. Roaring jets are destructive noise, stress inducing
